Research pack — not legal advice

■ Action

■ Success

■ Wait

■ Decision

■ Fail / stop

Actors: customer on app/web only

Source: 05b catalog and 05c interactive explorer. Tracking ID is shown in-app at Step 0; SMS only after OTP success. Confirm interpretations with Compliance and Legal before go-live. Fictional personas — no real PII.

Contents

Click a journey ID in a PDF viewer that supports internal links. Interactive version:
05c-kyc-interactive-journeys.html.

Family A — Onboarding

UJ-01	Happy path STP	Ayesha — salaried, resident CNIC
UJ-02	Shared e-KYC prefill	Ayesha — already KYC'd at another bank
UJ-03	Expired CNIC + NADRA token	Hamza — ID expired, token in hand
UJ-04	OTP fail / logout / change number	Ayesha — mistypes OTP
UJ-05	Decline mandatory consents	Ayesha — refuses NADRA processing
UJ-06	Abandon and resume ≤ 30 days	Ayesha — exits at live photo
UJ-07	Application expired > 30 days	Ayesha — returns day 31
UJ-08	Customer withdraws	Ayesha — cancels from status screen

Family B — Identity exceptions

UJ-09	BV fail → Verisys + MSISDN + OTP	Bilal — unclear fingerprints
UJ-10	Senior >60 or disability Verisys	Imran — age 67
UJ-11	Debit-blocked then later BV lift	Bilal — opens restricted, finishes BV later
UJ-12	Video KYC as BV fallback	Bilal — a/b fail; no branch
UJ-13	Live photo / liveness fail	Ayesha — dark room / mask
UJ-14	NADRA timeout / outage	Any — vendor down
UJ-15	Web channel BV	Ayesha — starts on web

Family C — ID and residency

UJ-16	NICOP	Farah — overseas Pakistani, in PK
UJ-17	NRP / POC abroad	Farah — applying from abroad
UJ-18	POC / POR / ARC	Kamran — eligible non-CNIC ID
UJ-19	Annex-B self-declaration Sol	Nadia — student / informal profession

Family D — Risk and decision

UJ-20	Medium risk additional docs	Sana — turnover vs income flag
UJ-21	High risk EDD + video interview	Sana — high CRP
UJ-22	PEP self-declare or screening match	Sana — family PEP
UJ-23	FATCA US person / CRS evidence	Omar — US tax person
UJ-24	Sanctions / fraud true match reject	System decline — written reason
UJ-25	Duplicate CNIC / existing CIF	Yasmin — already has active account

UJ-26	TAT delay beyond 2 WD	Any in review
UJ-27	Status by Tracking ID	Any — SMS/web/app

Family E — Lifecycle

UJ-28	Limit / KYC upgrade	Ayesha — wants higher limits
UJ-29	Periodic KYC refresh	Ayesha — due by risk interval
UJ-30	Refresh overdue restriction	Ayesha — ignored reminders
UJ-31	CNIC renewal after token opening	Hamza — 3-month timer
UJ-32	Event-driven refresh	Ayesha — ID expiry / product change
UJ-33	Dormancy reactivation	Ayesha — no login/txn ~1 year
UJ-34	Suspected activity extra verification	Ayesha — TMS step-up

Family F — Phase 2 summary

UJ-35	Joint account	Phase 2 — both parties CDD
UJ-36	Minor + guardian	Phase 2 — Form-B / Juvenile
UJ-37	Mandate / authorized operator	Phase 2 — operator KYC
UJ-38	Entity / SME + UBO	Phase 2 — P6 entity

Happy path STP

Ayesha — salaried, resident CNIC · A CDD/BV/TAT · C progress

Low-risk resident completes NADRA BV. Screening is clear. Account goes straight to ACTIVE.

TRIGGER Taps Open account. Eligible resident CNIC. BV succeeds. Screening clear. CRP LOW.	SUCCESS Full product limits. Home dashboard. TMS enrolled. State ACTIVE.	ALTERNATE Any fail branches to UJ-04 through UJ-25.
---	--	---

Related [UJ-02](#) · [UJ-04](#) · [UJ-09](#) · [UJ-27](#)

Workflow

Steps

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
1	■ Open account Main · Action	INITIATED	Opens app or web and taps Open savings/current account.	Creates application. Captures channel, device hash, IP, geo if permitted.	Tracking ID on screen
2	■ Tracking ID on screen Main · Action	INITIATED	Sees Tracking ID. Can copy it. No SMS yet — no mobile collected.	Issues Tracking ID. Shows it in-app only.	Mobile OTP
3	■ Mobile OTP Main · Action	CONTACT_VERIFIED	Enters PTA-registered mobile and OTP.	Sends OTP. Verifies. Binds mobile. Does not skip state on wrong OTP.	SMS Tracking ID
4	■ SMS Tracking ID Main · Action	CONTACT_VERIFIED	Receives SMS: application started + Tracking ID.	First out-of-band notify. Only after OTP success — not to an unverified number.	Consents
5	■ Consents Main · Action	CONSENT_CAPTURED	Accepts T&Cs, privacy, KFS, NADRA/BV. Marketing off by default.	Stores versioned consents. Blocks continue until mandatory accepted.	CNIC identity
6	■ CNIC identity Main · Action	IDENTITY_CAPTURED	Enters or confirms Table-A identity (CNIC, names, DOB, dates).	Format/checksum validation. Encrypts sensitive fields.	Live photo
7	■ Live photo Main · Action	LIVE_PHOTO_CAPTURED	Centers face. Captures live photo. Good light, no mask.	Encrypted realtime upload. No photo left on device. Face match vs ID.	NADRA BV success
8	■ NADRA BV success Main · Success	IDENTITY_VERIFIED	Completes in-app fingerprint or facial BV.	NADRA adapter BV. Persist vendor refs, not raw templates.	Profile FATCA PEP
9	■ Profile FATCA PEP Main · Action	PROFILE_COMPLETE	Occupation, Sol, purpose, addresses, FATCA/CRS, PEP declaration.	Annex-B document rules. Independent PEP screen still runs later.	Screening clear
10	■ Screening clear Main · Success	SCREENING_IN_PROGRESS → clear	Sees Under review, then Approved. Does not see list hits.	UNSC + ATA + PEP + watchlist. Clear → risk.	CRP LOW STP
11	■ CRP LOW STP Main · Success	APPROVED → ACCOUNT_PENDING	Account approved. TAT target ≤ 2 working days.	Risk LOW + BV + clear screening → auto approve. CIF + IBAN.	Set PIN · ACTIVE
12	■ Set PIN · ACTIVE Main · Success	ACTIVE	Sets PIN. Sees IBAN and home. Optional debit card.	Device binding. Welcome notices. TMS enroll.	End of this branch

Shared e-KYC prefill

Ayesha — already KYC'd at another bank · A when platform live + consent

Optional consent lets the bank prefill KYC. BV and sanctions still run. Miss or timeout continues locally.

TRIGGER
Customer accepts optional Shared e-KYC consent and the platform is live.

SUCCESS
Prefill confirmed. Customer still owns accuracy. Then live photo + BV.

ALTERNATE
Decline, miss, or error → silent continue to local identity form (UJ-01).

Related [UJ-01](#) · [UJ-05](#)

Workflow

Steps

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
1	Optional e-KYC consent Main · Decision	CONSENT_CAPTURED	Can accept or refuse Shared e-KYC. Refusal must not block local KYC.	Records SHARED_EKYC_READ consent version.	accepted → Network lookup
2	Network lookup Main · Wait	CONSENT_CAPTURED	Short wait. No dark pattern to force consent.	Adapter query. Bank stays responsible for CDD.	hit → KYC found miss/timeout → No shared KYC
3	KYC found Main · Action	EKYC_PREFILL_APPLIED	Sees We found your KYC — review details.	Prefills editable fields. Never skips sanctions or BV.	Customer confirms fields
4	Customer confirms fields Main · Action	IDENTITY_CAPTURED	Edits anything wrong. Confirms identity fields.	Stores confirmed Table-A values.	Live photo + BV
5	Live photo + BV Main · Success	LIVE_PHOTO_CAPTURED → IDENTITY_VERIFIED	Still captures live photo and NADRA BV.	Same verification policy as UJ-01.	End of this branch
6	No shared KYC Branch · Action	skip prefill	Sees No shared KYC — continue. Same as manual path.	Timeout/miss is non-blocking.	Live photo + BV

Expired CNIC + NADRA token

Hamza — ID expired, token in hand · A token path · renew in 3 months

Expired CNIC can open if NADRA token/receipt is captured. Renewed ID is due within 3 months (UJ-31).

TRIGGER
Enters expired CNIC and has NADRA renewal receipt/token.

SUCCESS
Application continues. Renewal timer starts. May still reach ACTIVE.

ALTERNATE
No token → cannot proceed on expired ID.

Related [UJ-01](#) · [UJ-31](#)

Workflow

Steps

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
1	■ Enter CNIC Main · Action	IDENTITY_CAPTURED pending	Enters CNIC that NADRA shows as expired.	Detects expiry vs today.	Expired?
2	■ Expired? Main · Decision	IDENTITY_CAPTURED	Helper text: need NADRA token/receipt to continue.	Blocks continue without token artefact.	has token → Capture token no token → No token — stop
3	■ Capture token Main · Action	IDENTITY_CAPTURED	Uploads expired ID plus NADRA token/receipt.	Stores artefact. Flags document_pending.	3-month timer
4	■ 3-month timer Main · Wait	exception + reminder	Told renewed CNIC is required within 3 months.	Schedules reminders (handoff UJ-31).	Rest of onboarding
5	■ Rest of onboarding Main · Success	may be ACTIVE or RESTRICTED_ACTIVE	Live photo, BV or alternate, profile, submit.	Same spine as UJ-01 after identity.	End of this branch

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
6	No token — stop Branch · Fail / stop	IDENTITY_CAPTURED	Cannot continue until token is available.	Stay at identity. No account.	End of this branch

OTP fail / lockout / change number

Ayesha — mistypes OTP · A MSISDN · B/C OTP security

Wrong OTP never skips CONTACT_VERIFIED. After N fails, cool-down. Change number is a new attempt.

TRIGGER

Wrong OTP, expiry, or customer wants a different mobile.

SUCCESS

Mobile verified → CONTACT_VERIFIED. Then SMS Tracking ID.

ALTERNATE

Cool-down. Support via Tracking ID shown in-app (UJ-27).

Related [UJ-01](#) · [UJ-27](#)

Workflow

Steps

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
1	Enter mobile Main · Action	INITIATED	Types mobile. Helper: PTA-registered in own name.	Start OTP. Attempt counters.	Enter OTP
2	Enter OTP Main · Decision	INITIATED	Enters code from SMS.	No OTP in logs. Confirm or fail.	correct → Verified fail → Wrong / expired
3	Wrong / expired Main · Fail / stop	INITIATED	Retry prompt. Remaining attempts shown.	Does not advance state.	Retry N fails → Lockout cool-down
4	Retry Main · Action	INITIATED	Requests new OTP or re-enters.	Resend with limits.	Enter OTP
5	Verified Main · Success	CONTACT_VERIFIED	Mobile verified badge.	Bind MSISDN. SMS Tracking ID.	End of this branch

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
6	Lockout cool-down Branch · Wait	INITIATED	Sees timer. Cannot brute-force.	Cool-down. Still INITIATED.	Change number
7	Change number Branch · Action	INITIATED	Optional new number. New attempt rules explained.	New OTP cycle. Fraud rules apply.	Enter mobile

Decline mandatory consents

Ayesha — refuses NADRA processing · A/B consents

Mandatory consents (T&Cs, privacy, KFS, NADRA/BV) gate the journey. Marketing is separate and off by default.

TRIGGER
Refuses T&Cs, privacy, KFS, or NADRA/BV processing.

SUCCESS
If later accepted →
CONSENT_CAPTURED.

ALTERNATE
Save draft (UJ-06) or withdraw (UJ-08).

Related [UJ-06](#) · [UJ-08](#)

Workflow

Steps

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
1	Consent screen Main · Action	CONTACT_VERIFIED	Reads KFS, T&Cs, privacy, NADRA/BV purpose (EN/UR).	Shows mandatory vs optional visually.	refuse → Decline mandatory accept → Accept mandatory
2	Decline mandatory Main · Decision	CONTACT_VERIFIED	Leaves a required box unchecked.	Continue stays disabled.	Cannot continue
3	Cannot continue Main · Fail / stop	CONTACT_VERIFIED	Explains which consent is required.	No CONSENT_CAPTURED.	Save draft
4	Save draft Main · Wait	CONTACT_VERIFIED	Optional Save draft and exit.	30-day resume window.	End of this branch
5	Accept mandatory Branch · Success	CONSENT_CAPTURED	Accepts all required. Marketing still optional.	Timestamped versioned consents.	End of this branch

Abandon and resume ≤ 30 days

Ayesha — exits at live photo · A 30-day resume

Draft is saved up to 30 days. Return via app or Tracking ID to the last incomplete step.

TRIGGER
Exits mid-flow or kills the app.

SUCCESS
Resumes without re-collecting completed steps (re-auth OTP if policy).

ALTERNATE
Day 31 → UJ-07 expired.

Related [UJ-07](#) · [UJ-27](#)

Workflow

Steps

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
1	■ Leaves mid-flow Main · Action	last successful state	Closes app at an incomplete step (e.g. live photo).	Persists last successful state.	Draft ≤ 30 days
2	■ Draft ≤ 30 days Main · Wait	unchanged	May get reminder. Tracking ID already on screen from Step 0.	Resume window (A).	Return day ≤ 30
3	■ Return day ≤ 30 Main · Action	unchanged	Opens deep link or enters Tracking ID.	Loads application. Optional step-up OTP.	Last incomplete step
4	■ Last incomplete step Main · Success	continues spine	Lands on live photo (example), not at the start.	No skip forward. No silent re-collect of done steps.	End of this branch

Application expired > 30 days

Ayesha — returns day 31 · A 30-day resume

After 30 days the application is EXPIRED. Customer must start a new one. Old Tracking ID is for support only.

TRIGGER
Resume window exceeded.

SUCCESS
New application INITIATED.

ALTERNATE
Support cannot silently reuse old evidence beyond policy.

Related [UJ-06](#) · [UJ-01](#)

Workflow

Steps

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
1	■ Return day 31+ Main · Action	EXPIRED	Opens old link or Tracking ID.	Expiry job already marked EXPIRED.	Expired message
2	■ Expired message Main · Fail / stop	EXPIRED	Sees Application expired — start a new one. Old ID for support.	Terminal for that application.	Start new
3	■ Start new Main · Success	INITIATED	Taps Open account again.	POST new application. New Tracking ID.	End of this branch

Customer withdraws

Ayesha — cancels from status screen · D UX · audit A/B

Customer-initiated cancel. No CIF. TAT clock stops. Accidental cancel cannot reopen the same ID.

TRIGGER

Chooses Cancel application from status or support-linked screen.

SUCCESS

No account. Can start a new application per fraud/dedupe rules.

ALTERNATE

Accidental cancel → start new. Same ID is not reopened.

Related [UJ-01](#) · [UJ-06](#)

Workflow

Steps

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
1	Cancel application Main · Action	in-progress	Taps cancel on status.	Asks confirm. Explains no account will open.	Confirm
2	Confirm Main · Decision	in-progress	Confirms withdrawal.	Stops TAT. No CIF.	yes → WITHDRAWN
3	WITHDRAWN Main · Fail / stop	WITHDRAWN	Confirmation + support contact.	State WITHDRAWN. Audit event.	End of this branch

BV fail → Verisys + MSISDN + OTP

Bilal — unclear fingerprints · A §F.1.v.b

Eligible BV failure uses Verisys + CNIC–MSISDN pairing + OTP/callback. Not a silent approve.

TRIGGER

Live photo OK. BV fails for an eligible reason (unclear prints, etc.).

SUCCESS

IDENTITY_VERIFIED at alternate assurance. May still be full ACTIVE.

ALTERNATE

Still fail → debit block (UJ-11) and/or video KYC (UJ-12).

Related [UJ-10](#) · [UJ-11](#) · [UJ-12](#)

Workflow

Steps

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
1	BV eligible fail Main · Fail / stop	IDENTITY_VERIFICATION_IN_PROGRESS	Fingerprint/face BV does not complete.	Eligible-reason check. Do not STP.	We'll verify another way
2	We'll verify another way Main · Action	IDENTITY_VERIFICATION_IN_PROGRESS	Plain EN/UR why BV failed and what is next.	Starts Verisys orchestration.	NADRA Verisys
3	NADRA Verisys Main · Action	IN_PROGRESS	Waits. May confirm CNIC details.	Verisys. Persist vendor ref.	CNIC–MSISDN + OTP
4	CNIC–MSISDN + OTP Main · Action	IN_PROGRESS	Confirms mobile ownership via OTP or callback.	Pairs CNIC to MSISDN.	success → Identity verified fail → Still failing
5	Identity verified Main · Success	IDENTITY_VERIFIED	Sees Identity verified. Continues profile.	Assurance = Verisys tier.	End of this branch

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
6	Still failing Branch · Fail / stop	VIDEO_KYC_PENDING or restricted path	Offered video KYC or debit-blocked open.	Route UJ-11 / UJ-12.	End of this branch

Senior >60 or disability Verisys

Imran — age 67 · A Verisys alternate for >60 / disability

Seniors over 60 and disability/unclear prints get Verisys without punitive finger-retry loops. Live photo still required.

TRIGGER
DOB >60, or declared/observed permanent disability / unclear fingerprints.

SUCCESS
Verified without endless BV retries.

ALTERNATE
Verisys fail → UJ-11 / UJ-12.

Related [UJ-09](#) · [UJ-11](#) · [UJ-12](#)

Workflow

Steps

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
1	Eligible reason Main · Decision	IDENTITY_CAPTURED	Age from DOB, or disability/unclear prints.	Sets eligible Verisys reason. Records why BV not met.	Offer Verisys
2	Offer Verisys Main · Action	LIVE_PHOTO_CAPTURED	Not forced through repeated finger BV. Still live photo.	Skip punitive retry loop.	Verisys + MSISDN
3	Verisys + MSISDN Main · Action	IDENTITY_VERIFICATION_IN_PROGRESS	Completes Verisys and mobile pairing (UJ-09).	Same tier as UJ-09.	success → Verified fail → Verisys fail
4	Verified Main · Success	IDENTITY_VERIFIED	Identity verified.	IDENTITY_VERIFIED.	End of this branch

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
5	Verisys fail Branch · Fail / stop	VIDEO_KYC_PENDING or restricted	Video KYC or debit-block path.	UJ-11 / UJ-12.	End of this branch

Debit-blocked then later BV lift

Bilal — opens restricted, finishes BV later · A \$F.1.v.c · explicit banner

If BV and Verisys+MSISDN are not done, the account may open with debit block. Messaging is explicit. Later BV lifts it.

TRIGGER
Tiers a/b not completed. Policy opens with debit block.

SUCCESS
Later BV success clears debit_block and bv_pending. ACTIVE full limits. Banner gone.

ALTERNATE
Still cannot BV → video KYC (UJ-12) or remain restricted.

Related [UJ-09](#) · [UJ-12](#) · [UJ-28](#)

Workflow

Steps

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
1	Restricted open Main · Action	RESTRICTED_ACTIVE	Told Account opened — debit blocked until biometric complete.	RESTRICTED_ACTIVE + debit_block + bv_pending. Credits may be allowed per policy.	Home banner
2	Home banner Main · Wait	RESTRICTED_ACTIVE	Persistent banner. Not a silent limited account.	restrictionFlags on status API.	Complete biometric
3	Complete biometric Main · Action	bv_pending	Taps CTA to finish BV.	Starts BV session.	NADRA BV
4	NADRA BV Main · Decision	verification	Completes fingerprint/face.	NADRA adapter.	success → Lift block fail → BV still fails
5	Lift block Main · Success	ACTIVE	Banner gone. Full limits.	Clear debit_block and bv_pending.	End of this branch

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
6	BV still fails Branch · Fail / stop	RESTRICTED_ACTIVE	Verisys/MSISDN or video KYC offered.	Stay restricted until policy success.	retry later → Home banner

Video KYC as BV fallback

Bilal — a/b fail; no branch · A §F.1.v.f / §G

Digital bank without branches: recorded video KYC + Verisys when BV and MSISDN tiers fail. Recording is retained.

TRIGGER
No physical branch. BV and Verisys+MSISDN not completed.

SUCCESS
IDENTITY_VERIFIED. Account ACTIVE or still restricted per flags.

ALTERNATE
No-show or poor recording → reschedule. Reject if policy fails.

Related [UJ-09](#) · [UJ-11](#) · [UJ-21](#)

Workflow

Steps

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
1	Video KYC required Main · Action	VIDEO_KYC_PENDING	Told additional video verification is required.	VIDEO_KYC_PENDING. Record why BV not met.	Book session
2	Book session Main · Action	VIDEO_KYC_PENDING	Picks a slot.	Creates video session.	Join call
3	Join call Main · Action	VIDEO_KYC_PENDING	Joins. Follows agent script. Shows ID. Live presence.	Agent script. Liveness as support only — not a BV substitute.	Recording + Verisys
4	Recording + Verisys Main · Wait	VIDEO_KYC_PENDING	Waits for decision.	Retains recording. Runs Verisys.	pass → Verified fail/no-show → No-show / reject
5	Verified Main · Success	IDENTITY_VERIFIED	Identity verified. Continues or account activates.	IDENTITY_VERIFIED.	End of this branch

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
6	No-show / reject Branch · Fail / stop	VIDEO_KYC_PENDING or REJECTED	Reschedule or written decline.	Re-request or REJECTED.	reschedule → Book session

Live photo / liveness fail

Ayesha — dark room / mask · A live photo · B/C match/liveness

Live photo is mandatory for digital onboarding. Liveness helps anti-impersonation. It does not replace NADRA BV.

TRIGGER
Face not in frame, mismatch to ID portrait, or liveness fail.

SUCCESS
Live photo accepted → BV step.

ALTERNATE
Max retries → video KYC (UJ-12) or reject per fraud policy.

Related [UJ-01](#) · [UJ-12](#)

Workflow

Steps

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
1	Capture live photo Main · Action	IDENTITY_CAPTURED	Centers face. Guidance: light, no mask.	Realtime encrypted upload. Nothing stored on device.	Match / liveness fail
2	Match / liveness fail Main · Fail / stop	IDENTITY_CAPTURED	Told what went wrong (light, mask, mismatch).	Face match vs ID. Optional liveness. Not a BV substitute.	Retry N times
3	Retry N times Main · Action	IDENTITY_CAPTURED	Retries with guidance.	Attempt cap.	pass → Photo accepted N fails → Max retries
4	Photo accepted Main · Success	LIVE_PHOTO_CAPTURED	Continues to NADRA BV.	LIVE_PHOTO_CAPTURED.	End of this branch
5	Max retries Branch · Fail / stop	IDENTITY_CAPTURED	Schedule video or support.	No skip to BV without photo.	End of this branch

NADRA timeout / outage

Any — vendor down · A fail-controlled on BV

NADRA 503 never becomes silent APPROVE. Application holds IN_PROGRESS. Customer can retry or resume later.

TRIGGER
NADRA/vendor timeout or 503.

SUCCESS
Vendor recovers → continue UJ-01 or UJ-09.

ALTERNATE
Resume later (UJ-06). After max retries → alternate tier or case.

Related [UJ-01](#) · [UJ-09](#) · [UJ-06](#)

Workflow

Steps

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
1	NADRA call fails Main · Fail / stop	IDENTITY_VERIFICATION_IN_PROGRESS	Sees Verification taking longer + Tracking ID. No fake Approved.	503/timeout. Stay IN_PROGRESS.	Hold — no STP
2	Hold — no STP Main · Wait	IDENTITY_VERIFICATION_IN_PROGRESS	Retry CTA. Can leave and come back.	Backoff retries. Never APPROVE on outage.	Customer retry
3	Customer retry Main · Action	IN_PROGRESS	Taps retry.	Idempotent restart.	up → Vendor up still down → Max retries
4	Vendor up Main · Success	IDENTITY_VERIFIED or still in progress	BV or Verisys continues.	Resume UJ-01 or UJ-09.	End of this branch
5	Max retries Branch · Fail / stop	alternate or case	Alternate verify or wait for case.	Verisys/video/case. Still no silent approve.	End of this branch

Web channel BV

Ayesha — starts on web · A website/portal allowed

Same state machine as mobile. BV via webcam/widget or Continue in app for the biometric SDK.

TRIGGER

Starts on web/portal instead of mobile app.

SUCCESS

Same outcomes as mobile (UJ-01 or identity exceptions).

ALTERNATE

Webcam cannot complete BV → push-to-app or UJ-09/UJ-12.

Related [UJ-01](#) · [UJ-09](#) · [UJ-12](#)

Workflow

Steps

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
1	■ Start on web Main · Action	INITIATED	Opens portal. Same steps as app.	channel = WEB. Geo/IP captured.	Same spine
2	■ Same spine Main · Action	through LIVE_PHOTO	OTP, consents, identity, live photo.	Same APIs and states.	How to do BV
3	■ How to do BV Main · Decision	IDENTITY_VERIFICATION_IN_PROGRESS	Webcam/vendor widget or Continue in app.	Same application ID.	webcam → Webcam BV app → Push to app
4	■ Verified Main · Success	IDENTITY_VERIFIED	Continues on web or app.	IDENTITY_VERIFIED.	End of this branch
5	■ Webcam BV Branch · Action	IN_PROGRESS	Completes facial BV in browser if NADRA product allows.	Vendor widget. No device template store.	Verified

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
6	Push to app Branch · Action	IN_PROGRESS	Opens app to finish fingerprint/face SDK.	Binds same applicationId.	Verified

NICOP

Farah — overseas Pakistani, in PK · A eligible digital ID

NICOP is an allowed digital onboarding ID. If she is abroad and BV is unavailable, use UJ-17.

TRIGGER

Selects NICOP (in Pakistan; if abroad see UJ-17).

SUCCESS

Account per product after same CDD spine as UJ-01.

ALTERNATE

BV unavailable abroad → UJ-17.

Related [UJ-01](#) · [UJ-17](#)

Workflow

Steps

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
1	Select NICOP Main · Action	CONSENT_CAPTURED	Chooses NICOP instead of CNIC.	Allow-list ID type.	NICOP fields
2	NICOP fields Main · Action	IDENTITY_CAPTURED	Number, issue, expiry, Table-A names/DOB.	Format validation. FATCA/CRS often NRP-capable.	Live photo
3	Live photo Main · Action	LIVE_PHOTO_CAPTURED	Live photo vs NICOP portrait.	Same live-photo rules.	BV if available
4	BV if available Main · Decision	IDENTITY_VERIFIED or Verisys	Completes NADRA BV in PK.	If BV unavailable abroad → UJ-17.	Profile → ACTIVE
5	Profile → ACTIVE Main · Success	ACTIVE	Same profile, screening, STP if low risk.	Same decisioning as UJ-01.	End of this branch

NRP / POC abroad

Farah — applying from abroad · A Verisys until BV available

NRP/POC outside Pakistan may use Verisys until NADRA BV is available. Live photo still required. Do not fake BV success.

TRIGGER

Residency NRP and/or POC holder applying outside Pakistan; BV service not available.

SUCCESS

IDENTITY_VERIFIED at Verisys assurance. Relationship established honestly.

ALTERNATE

When BV becomes available → upgrade/remediation (UJ-28 / UJ-32).

Related [UJ-16](#) · [UJ-18](#) · [UJ-28](#)

Workflow

Steps

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
1	Geo shows abroad Main · Action	IDENTITY_CAPTURED	Applies from outside Pakistan.	Records geo/IP. Residency NRP/POC.	BV later
2	BV later Main · Action	IDENTITY_CAPTURED	Told BV will follow when the service is available.	Does not mark BV success.	Live photo still
3	Live photo still Main · Action	LIVE_PHOTO_CAPTURED	Digital live photo vs ID portrait.	Live photo is still A .	Verisys path
4	Verisys path Main · Action	IDENTITY_VERIFICATION_IN_PROGRESS	Completes Verisys (and MSISDN if applicable).	Framework exception for NRP/POC abroad.	Verified (Verisys)
5	Verified (Verisys) Main · Success	IDENTITY_VERIFIED	Can complete profile. Possible restriction flags per policy.	Assurance = Verisys, not BV.	End of this branch

POC / POR / ARC

Kamran — eligible non-CNIC ID · A eligible digital IDs

Digital onboarding allows CNIC, NICOP, POC, POR, ARC only. Passport-only without ARC is blocked.

TRIGGER

Holds POC, POR, or ARC (not CNIC/NICOP).

SUCCESS

Verified identity. Product eligibility per bank policy.

ALTERNATE

Ineligible ID → stop with a specific reason.

Related [UJ-01](#) · [UJ-16](#) · [UJ-17](#)

Workflow

Steps

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
1	Select ID type Main · Decision	CONSENT_CAPTURED	Chooses POC, POR, or ARC.	Allow-list before capture.	Eligible?
2	Eligible? Main · Decision	pre-identity	If type not allowed, sees why.	Block ineligible types (e.g. passport-only).	POC/POR/ARC → Capture fields ineligible → Ineligible — stop
3	Capture fields Main · Action	IDENTITY_CAPTURED	Number, dates, nationality, residency.	Table-A + nationality fields.	BV or alternate
4	BV or alternate Main · Action	IDENTITY_VERIFIED	Live photo + NADRA BV or eligible Verisys.	Screen customer.	Continue CDD
5	Continue CDD Main · Success	PROFILE_COMPLETE onward	Profile and decisioning as UJ-01.	Same spine.	End of this branch

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
6	Ineligible — stop Branch · Fail / stop	blocked	Specific reason. Support.	No IDENTITY_CAPTURED.	End of this branch

Annex-B self-declaration Sol

Nadia — student / informal profession · A risk-based Annex-B

Self-declaration is allowed only if low CRP, low expected turnover, and a profession where formal docs are uncommon. Not a blanket skip of salary slips.

TRIGGER
Student, housewife, farmer, labor, etc. and low risk and low turnover.

SUCCESS
PROFILE_COMPLETE. STP only if screening/risk still allow.

ALTERNATE
High turnover or medium-high risk → documents (UJ-20).

Related [UJ-01](#) · [UJ-20](#)

Workflow

Steps

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
1	■ Occupation Main · Action	toward PROFILE_COMPLETE	Selects student / informal profession.	Looks up Annex-B policy.	Self-declare allowed?
2	■ Self-declare allowed? Main · Decision	policy check	If not eligible, upload docs instead.	Requires low risk + low turnover + informal profession.	eligible → Self-declaration not eligible → Upload docs
3	■ Self-declaration Main · Action	profile	Declares Sol. If funds from another person: name, ID, relationship.	Stores declaration. Does not hardcode salary slip.	Profile complete
4	■ Profile complete Main · Success	PROFILE_COMPLETE	Continues to screening.	PROFILE_COMPLETE.	End of this branch
5	■ Upload docs Branch · Action	document_pending	Salary/business evidence when policy requires.	Document policy engine.	Profile complete

Medium risk additional docs

Sana — turnover vs income flag · A TAT comms · A CDD completeness

CRP MEDIUM or documentary gaps. Customer gets a checklist, not a silent stall. After upload, screening/risk re-run.

TRIGGER
CRP MEDIUM or missing docs after submit.

SUCCESS
Docs accepted → approve or EDD.

ALTERNATE
No upload in window → reminders; expire/restrict per policy.

Related [UJ-19](#) · [UJ-21](#) · [UJ-26](#)

Workflow

Steps

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
1	Submit profile Main · Action	PROFILE_COMPLETE	Reviews summary and submits.	Starts TAT clock. Screening + risk.	CRP MEDIUM
2	CRP MEDIUM Main · Decision	ADDITIONAL_INFORMATION_REQUIRED	Sees More information needed — not Approved.	ADDITIONAL_INFORMATION_REQUIRED. TAT pause/comms.	Doc checklist
3	Doc checklist Main · Action	ADDITIONAL_INFORMATION_REQUIRED	Sees exactly which docs are missing.	Case/doc flags.	Upload

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
4	■ Upload Main · Action	info submitted	Uploads Sol/SoF or other requested files.	Malware scan. Store.	Re-screen / re-risk
5	■ Re-screen / re-risk Main · Wait	PROFILE_COMPLETE re-run	Waits again. Tracking ID visible.	Re-enter screening and CRP.	Approve or EDD
6	■ Approve or EDD Branch · Success	APPROVED / EDD_REQUIRED / REJECTED	Approved, more EDD (UJ-21), or reject.	Decision per new rating.	End of this branch

High risk EDD + video interview

Sana — high CRP · A EDD · A recorded video NTF

High CRP needs extra SoW/SoF and a recorded video interview. Customer waits; maker-checker is ops-side.

TRIGGER
CRP HIGH and/or policy EDD (complex profile, SoW/SoF).

SUCCESS
Approved with enhanced monitoring, or reject with written reason.

ALTERNATE
Missed interview → reschedule. Delay → UJ-26.

Related [UJ-12](#) · [UJ-22](#) · [UJ-26](#)

Workflow

Steps

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
1	Extra verification needed Main · Action	EDD_REQUIRED	Told additional verification is required. Not STP.	EDD_REQUIRED / MANUAL_REVIEW case.	Upload Sol / SoW
2	Upload Sol / SoW Main · Action	EDD_REQUIRED	Uploads source of income/wealth evidence.	Stores docs on the EDD case.	Book video interview
3	Book video interview Main · Action	VIDEO_KYC_PENDING	Schedules recorded video KYC interview.	Video session. Retention rules.	Recorded interview
4	Recorded interview Main · Action	VIDEO_KYC_PENDING	Joins. Answers purpose, occupation, funds.	Recording retained. Senior path if PEP.	Decision

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
5	 Decision Main · Decision	APPROVED or REJECTED	Waits. Gets approve (monitoring) or written reject.	Ops maker-checker is invisible. Customer sees outcome only.	approve → Approved + monitoring reject → Rejected in writing
6	 Approved + monitoring Branch · Success	ACTIVE	Account opens with enhanced monitoring.	edd_in_progress/monitoring flag.	End of this branch
7	 Rejected in writing Branch · Fail / stop	REJECTED	Specific reason + support.	No CIF if never approved.	End of this branch

PEP self-declare or screening match

Sana — family PEP · A PEP · declaration B/D

PEP answers plus independent screening. Customer only waits. Senior approval is ops-side.

TRIGGER
Yes to PEP/family/associate, or independent PEP screen hits.

SUCCESS
Approved with enhanced monitoring, or declined in writing.

ALTERNATE
False-positive cleared → may approve without extra docs if policy allows.

Related [UJ-21](#) · [UJ-24](#)

Workflow

Steps

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
1	PEP questions Main · Action	PROFILE_COMPLETE	Answers PEP / family / close associate honestly.	Stores declaration. Still runs independent PEP list.	Yes or list hit
2	Yes or list hit Main · Decision	SCREENING_HIT_REVIEW	Sees Extra checks in progress.	SCREENING_HIT_REVIEW and/or EDD_REQUIRED.	Customer waits
3	Customer waits Main · Wait	EDD_REQUIRED	No maker-checker UI. Tracking ID + support.	Ops adjudicates. Senior approval if PEP relationship.	SoW / video if needed false positive → False positive
4	SoW / video if needed Main · Action	EDD_REQUIRED	May be asked SoW/SoF and video (UJ-21).	EDD steps.	Approve or decline

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
5	Approve or decline Main · Success	ACTIVE or REJECTED	Monitoring if approved; written reason if not.	PEP enhanced monitoring.	End of this branch
6	False positive Branch · Success	RISK onward	May see Approved without extra docs.	Adjudicated clear.	End of this branch

FATCA US person / CRS evidence

Omar — US tax person · A Table-A FATCA/CRS

US person or extra tax residency needs tax evidence. Refusal to declare blocks profile complete.

TRIGGER

US person, additional tax residency, or other nationality declared.

SUCCESS

Tax profile stored. Onboarding continues (may still EDD).

ALTERNATE

Refusal to declare → cannot complete profile.

Related [UJ-01](#) · [UJ-21](#)

Workflow

Steps

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
1	■ Tax residency UI Main · Action	toward PROFILE_COMPLETE	Declares resident/NRP, other tax residencies, US person.	Table-A FATCA/CRS capture.	US / extra residency?
2	■ US / extra residency? Main · Decision	tax profile	If yes, extra evidence requested.	May flag EDD.	US/CRS extra → Upload evidence resident only → Continue onboarding refuse → Refuse to declare
3	■ Upload evidence Main · Action	tax complete	Uploads tax evidence / W-form analogue per bank ops.	Stores tax docs.	Continue onboarding
4	■ Continue onboarding Main · Success	PROFILE_COMPLETE	Goes to review/submit.	Tax stored. Possible EDD_REQUIRED.	End of this branch
5	■ Refuse to declare Branch · Fail / stop	incomplete	Cannot finish profile.	Block PROFILE_COMPLETE.	End of this branch

Sanctions / fraud true match reject

System decline — written reason · A TFS · A written decline

Confirmed UNSC/ATA hit or fraud lock is fail-closed. No CIF. No STP retry. Customer gets a specific written reason.

TRIGGER
Confirmed sanctions/proscribed hit after adjudication, or fraud lock.

SUCCESS
Customer understands outcome. Support channel available.

ALTERNATE
Potential hit first → wait Under review until adjudication.

Related [UJ-22](#) · [UJ-27](#)

Workflow

Steps

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
1	Sanctions screen Main · Action	SCREENING_IN_PROGRESS	Does not see lists. Sees Under review.	UNSC + ATA + watchlist. Fail closed on provider down (no STP).	Potential hit
2	Potential hit Main · Wait	SCREENING_HIT_REVIEW	Status Under review. Tracking ID.	SCREENING_HIT_REVIEW. Ops adjudicates.	true match → True match / fraud false positive → False positive
3	True match / fraud Main · Fail / stop	REJECTED	Application rejected.	No CIF. Audit. No STP retry for sanctions true match.	Written reason
4	Written reason Main · Fail / stop	REJECTED	Specific legal-approved wording + support.	Decline notice A .	End of this branch
5	False positive Branch · Success	RISK_ASSESSMENT_IN_PROGRESS	Continues to risk.	Adjudicated clear.	End of this branch

Duplicate CNIC / existing CIF

Yasmin — already has active account · A/B no duplicate · C fraud

Active CNIC uniqueness key blocks a second CIF. Message must be clear: You already have an account — not a vague reject.

TRIGGER
CNIC hash matches an active customer uniqueness key.

SUCCESS
Login to existing CIF, or support-led merge (customer sees support).

ALTERNATE
Closed/old CIF → reopen vs new app per product policy.

Related [UJ-01](#) · [UJ-27](#)

Workflow

Steps

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
1	■ Enter CNIC Main · Action	IDENTITY_CAPTURED	Enters identity.	Hash check vs identity_uniqueness_keys.	Active CIF match
2	■ Active CIF match Main · Decision	blocked or REJECTED	Stopped from opening a second account.	Block/case. Duplicate queue for ops.	Clear copy
3	■ Clear copy Main · Action	pre-verify / REJECTED	You already have an account (or recovery/login). Not Rejected by policy only.	Redirect intent.	Login existing
4	■ Login existing Main · Success	existing ACTIVE	Goes to login/recovery.	No new CIF.	End of this branch

TAT delay beyond 2 WD

Any in review · A TAT 2 WD · A 24/7 support

If a decision is not issued within 2 working days of a complete application, the customer is notified. No silent stall.

TRIGGER
Individual decision not issued within 2 working days of complete docs.

SUCCESS
Customer can track (UJ-27) until a decision exists.

ALTERNATE
Entity TAT 5 WD is Phase 2 (UJ-38).

Related [UJ-20](#) · [UJ-21](#) · [UJ-27](#)

Workflow

Steps

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
1	Application complete Main · Action	MANUAL_REVIEW / EDD_REQUIRED	Submitted all required docs.	TAT clock running (2 WD individuals).	Waiting
2	Waiting Main · Wait	unchanged	Status Under review + Tracking ID.	SLA dashboard.	Day 3 no decision
3	Day 3 no decision Main · Fail / stop	unchanged	Still waiting.	SLA breach queue (ops).	Notify customer
4	Notify customer Main · Action	same as before	Push/SMS/email: still in review, Tracking ID, support.	Customer comms. State unchanged.	End of this branch

Status by Tracking ID

Any — SMS/web/app · A tracking ID + status

Tracking ID is on-screen from Step 0. SMS after OTP. Email if collected. Status shows next step without excess PII.

TRIGGER
Any in-flight or decided application.

SUCCESS
Customer knows the next action (upload, wait, login, support).

ALTERNATE
Unknown ID → generic error (no enumeration).

Related [UJ-01](#) · [UJ-04](#) · [UJ-26](#)

Workflow

Steps

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
1	■ Where the ID is Main · Action	any	On-screen from Step 0. SMS after OTP success. Email if captured.	Never SMS at Step 0 — no destination yet.	Enter Tracking ID
2	■ Enter Tracking ID Main · Action	current	App/web status field.	GET tracking. Rate-limited. Minimal fields.	found → Next step shown not found → Unknown ID
3	■ Next step shown Main · Success	current	Progress, restrictions, next action. No extra PII.	Non-sensitive status.	End of this branch
4	■ Unknown ID Branch · Fail / stop	n/a	Generic error.	No enumeration of valid IDs.	End of this branch

Limit / KYC upgrade

Ayesha — wants higher limits · A ongoing CDD · D thresholds

Higher limits need fresh docs and often re-BV. Insufficient evidence keeps current limits.

TRIGGER
Requests higher limits / product upgrade from home.

SUCCESS
New limit banner. Debit block lifted if that was the gate.

ALTERNATE
Insufficient evidence → remain on current limits.

Related [UJ-11](#) · [UJ-19](#) · [UJ-29](#)

Workflow

Steps

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
1	Request upgrade Main · Action	ACTIVE or RESTRICTED_ACTIVE	Taps upgrade / higher limits on home.	May spawn refresh-like application.	Upload Sol/SoF
2	Upload Sol/SoF Main · Action	refresh/remediation	Provides income/funds evidence.	Re-screen.	Re-BV if needed
3	Re-BV if needed Main · Action	verification	Repeats BV if assurance is insufficient.	Raises assurance level.	Decision
4	Decision Main · Decision	ACTIVE	Waits.	Updates limits or keeps current.	pass → New limits fail → Keep current limits
5	New limits Main · Success	ACTIVE	Sees new limit banner. Block lifted if applicable.	Account limits updated.	End of this branch
6	Keep current limits Branch · Fail / stop	ACTIVE (unchanged limits)	Told what is still missing.	No silent upgrade.	End of this branch

Periodic KYC refresh

Ayesha — due by risk interval · A ongoing CDD · B interval policy

Scheduler marks REFRESH_DUE by risk rating. Customer updates profile. Material change can trigger EDD.

TRIGGER
kyc_refresh_schedules due date.

SUCCESS
Next due date set. Account uninterrupted if completed on time.

ALTERNATE
Ignore → UJ-30 overdue restriction.

Related [UJ-30](#) · [UJ-21](#) · [UJ-32](#)

Workflow

Steps

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
1	REFRESH_DUE Main · Wait	ACTIVE → REFRESH_DUE	Not yet restricted if inside grace.	Scheduler by risk interval.	Reminder
2	Reminder Main · Action	REFRESH_DUE	Push/SMS Update your KYC. Deep link.	Notification.	Review profile / ID
3	Review profile / ID Main · Action	REFRESH_DUE	Confirms or updates fields. Uploads if asked.	Refresh application.	Re-screen + CRP
4	Re-screen + CRP Main · Wait	screening/risk	Under review.	Fresh sanctions/PEP + risk. Material change → EDD (UJ-21).	no material change → Complete material/high → Material change
5	Complete Main · Success	ACTIVE	Limits unchanged. Next due set.	Schedule updated.	End of this branch
6	Material change Branch · Action	EDD_REQUIRED	Extra docs/video if risk jumped.	EDD path.	Complete

Refresh overdue restriction

Ayesha — ignored reminders · A ongoing CDD enforcement

Overdue refresh is not silent. Customer sees restriction/freeze and a CTA to complete UJ-29.

TRIGGER
Refresh not completed beyond policy grace.

SUCCESS
Completing UJ-29 lifts restriction.

ALTERNATE
Continued non-response → dormancy/closure per Legal.

Related [UJ-29](#) · [UJ-33](#)

Workflow

Steps

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
1	Grace exceeded Main · Fail / stop	REFRESH_DUE	Had reminders and did not complete refresh.	Policy overdue.	Explicit restriction
2	Explicit restriction Main · Fail / stop	REFRESH_DUE / REMEDIATION	Sees debit restrict/freeze copy — not a silent limit.	Restriction flags. Notify.	Complete refresh
3	Complete refresh Main · Action	REMEDIATION	Taps CTA into UJ-29.	Same refresh APIs.	Restriction lifted
4	Restriction lifted Main · Success	ACTIVE	Operable again after successful refresh.	Clear flags. Next due set.	End of this branch

CNIC renewal after token opening

Hamza — 3-month timer · A renewed ID within 3 months

Token-path accounts (UJ-03) must capture renewed CNIC within 3 months or go to remediation/restrict.

TRIGGER
Opened under UJ-03. Approaching 3 months.

SUCCESS
Identity expiry updated.

ALTERNATE
No renewed ID → restrict per policy.

Related [UJ-03](#) · [UJ-30](#)

Workflow

Steps

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
1	3-month clock Main · Wait	ACTIVE / RESTRICTED_ACTIVE	Account already open (possibly restricted).	Reminder schedule from UJ-03.	Reminders
2	Reminders Main · Action	same	Push/SMS: upload renewed CNIC.	Notifications.	Capture renewed CNIC ignored → No renewed ID
3	Capture renewed CNIC Main · Action	REMEDIATION if late	Photo/OCR confirm. May re-BV.	Update identity expiry.	on time → ID updated
4	ID updated Main · Success	operable	Timer cleared.	Identity current.	End of this branch
5	No renewed ID Branch · Fail / stop	REMEDIATION	Restriction messaging.	REMEDIATION + restrict.	End of this branch

Event-driven refresh

Ayesha — ID expiry / product change · A/B ongoing monitoring

Not the calendar interval. Triggered by CNIC expiry, adverse hit, fraud event, or product upgrade. Copy explains why.

TRIGGER
CNIC expiry, adverse screening, channel fraud, or product upgrade.

SUCCESS
Profile current. Risk updated.

ALTERNATE
Overdue → UJ-30.

Related [UJ-29](#) · [UJ-30](#) · [UJ-28](#)

Workflow

Steps

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
1	■ Event fires Main · Action	REFRESH_DUE / REMEDIATION	Did not wait for annual/interval refresh.	Opens refresh from event.	Copy explains why
2	■ Copy explains why Main · Action	REFRESH_DUE	ID expired / security / product — not a generic update.	Reason code on notification.	Same UX as UJ-29
3	■ Same UX as UJ-29 Main · Action	refresh	Updates profile/ID. Uploads if asked.	Re-screen. Possibly EDD.	Complete
4	■ Complete Main · Success	ACTIVE	Back to normal use.	Risk updated.	End of this branch

Dormancy reactivation

Ayesha — no login/txn ~1 year · A AML reactivation ID/verify

Dormant/inoperative (no customer txn or digital login for ~1 year — confirm current AML text) requires re-identification before use.

TRIGGER
Tries login or transfer on a dormant account.

SUCCESS
Login and payments work again.

ALTERNATE
Cannot re-verify → remain dormant + support.

Related [UJ-09](#) · [UJ-34](#)

Workflow

Steps

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
1	■ Login or transfer Main · Action	dormant	Tries to use the account.	Dormant flag.	Dormant message
2	■ Dormant message Main · Wait	dormant	Sees account is dormant and must re-verify.	Block or warn per policy.	Re-identify
3	■ Re-identify Main · Action	re-verify	Confirms CNIC and mobile.	Reactivation CDD. Screening.	BV or alternate
4	■ BV or alternate Main · Action	verification	Completes BV or eligible Verisys/video.	Same identity ladder.	pass → Operable again fail → Cannot re-verify
5	■ Operable again Main · Success	ACTIVE	Payments work.	Clear dormant flag.	End of this branch

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
6	■ Cannot re-verify Branch · Fail / stop	dormant	Remains dormant. Support.	No silent reactivation.	End of this branch

Suspected activity extra verification

Ayesha — TMS step-up · A impersonation · B/C device binding

TMS/fraud step-up (new device, atypical transfer). Extra OTP/BV/live photo. Restriction banner if applied. STR is ops-side, not shown.

TRIGGER
Device change or atypical transfer flagged.

SUCCESS
Restriction lifted after verification.

ALTERNATE
Fail → remain restricted + support.

Related [UJ-33](#) · [UJ-11](#)

Workflow

Steps

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
1	TMS / fraud flag Main · Action	ACTIVE + flags	May see extra verification required when transacting.	Step-up. Possible temporary debit_block.	Temporary restriction
2	Temporary restriction Main · Wait	ACTIVE + debit_block?	Explicit banner if restricted — not silent.	Orthogonal flags; KYC state may stay ACTIVE.	OTP / BV / photo
3	OTP / BV / photo Main · Action	challenge	Completes extra OTP, BV, or live photo.	Step-up auth. Case if needed.	pass → Lift restriction fail → Fail challenge
4	Lift restriction Main · Success	ACTIVE	Continues the transfer/login.	Clear temp flags.	End of this branch
5	Fail challenge Branch · Fail / stop	restricted	Stays restricted. Support. No STR text shown to customer.	Possible STR ops-side.	End of this branch

Joint account

Phase 2 — both parties CDD · A CDD each · A associated-person screening

v1 is primary-party. Phase 2: both parties complete identity/BV/consents/screening. Account is not active until all pass.

TRIGGER
Customer chooses joint savings/current.

SUCCESS
Joint CIF/account. Both operate per mandate.

ALTERNATE
One party fails → cannot activate as joint.

Related [UJ-01](#) · [UJ-37](#)

Workflow

Steps

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
1	Choose joint Main · Action	INITIATED (joint)	Primary selects joint product.	kyc_application_parties.	Primary CDD
2	Primary CDD Main · Action	primary IDENTITY_VERIFIED	Primary completes UJ-01 spine.	Party role primary. Screen this person.	Invite second party
3	Invite second party Main · Action	waiting party	Invitee gets a link.	Second party application link.	Invitee CDD
4	Invitee CDD Main · Action	second verified	Repeats identity, BV, consents.	Screen each associated person (A).	all pass → Both pass one fails → One party fails
5	Both pass Main · Success	ACTIVE joint	Joint account usable per mandate.	APPROVED only when all required parties verified + screening clear.	End of this branch

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
6	■ One party fails Branch · Fail / stop	not ACTIVE	Cannot activate as joint.	No partial joint go-live.	End of this branch

Minor + guardian

Phase 2 — Form-B / Juvenile · A identify/verify · D product

Guardian completes adult KYC. Minor identity via Form-B/Juvenile. Remote-only minor opening may be out of scope — digital ID list is CNIC/NICOP/POC/POR/ARC. Confirm with Compliance.

TRIGGER
Product allows minor. Guardian opens on behalf.

SUCCESS
Minor account with guardian operating mandate.

ALTERNATE
May require assisted channel if Form-B is not eligible digitally.

Related [UJ-01](#) · [UJ-37](#)

Workflow

Steps

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
1	Guardian KYC Main · Action	guardian verified	Adult ID + BV + consents.	Party role guardian. Screen guardian.	Minor identity
2	Minor identity Main · Action	minor captured	Form-B / Juvenile details. Purpose/SoF of funds.	No anonymous accounts.	Digital allowed?
3	Digital allowed? Main · Decision	policy	If remote not allowed, assisted/Phase 2 channel.	Consolidated digital IDs may not include Form-B. Confirm Legal.	allowed → Minor account not digital → Assisted channel
4	Minor account Main · Success	ACTIVE (mandate)	Guardian operates the mandate.	TAT typically 2 WD unless Legal says otherwise.	End of this branch
5	Assisted channel Branch · Wait	blocked remote	Cannot finish remote-only.	Out of v1 digital allow-list unless Legal confirms.	End of this branch

Mandate / authorized operator

Phase 2 — operator KYC · A CDD on persons acting

Operator completes own identity/BV/consents. Sanctions on operator can block the mandate without closing the primary.

TRIGGER
Existing customer adds an authorized operator, or opens with mandate.

SUCCESS
Operator transacts within mandate limits.

ALTERNATE
Operator sanctions/PEP → block mandate, not necessarily close primary.

Related [UJ-35](#) · [UJ-01](#)

Workflow

Steps

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
1	Add operator Main · Action	ACTIVE primary	Primary starts add authorized operator.	Party role mandate.	Primary confirms
2	Primary confirms Main · Action	pending operator	Confirms mandate scope.	Limits on operator actions.	Operator KYC
3	Operator KYC Main · Action	operator verification	Operator does identity, BV, consents.	Screen operator (A associated person).	clear → Mandate active hit → Block operator
4	Mandate active Main · Success	mandate live	Operator can transact within limits.	Mandate recorded.	End of this branch
5	Block operator Branch · Fail / stop	primary ACTIVE, mandate no	Operator cannot be added. Primary account can remain.	Sanctions/PEP on operator.	End of this branch

Entity / SME + UBO

Phase 2 — P6 entity · A UBO · A TAT 5 WD

Business account is Phase 2. Identify UBOs (20% generally / 10% EDD — confirm Legal). TAT max 5 working days. Not the v1 individual state machine.

TRIGGER
Business account (Phase 2 / P6).

SUCCESS
Entity CIF + account. UBOs stored.

ALTERNATE
Incomplete UBO → more info.
Sanctions on BO → reject.

Related [UJ-21](#) · [UJ-26](#)

Workflow

Steps

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
1	■ Entity intake Main · Action	entity application	Incorporation docs, addresses, consents.	entities table. Not v1 individual SM.	Identify UBOs
2	■ Identify UBOs Main · Action	UBO capture	Each UBO/controller identified and verified.	beneficial_owners. 20% / 10% EDD — confirm Legal.	Screen entity + BOs
3	■ Screen entity + BOs Main · Action	screening	Waits.	Sanctions each associated person. EDD if complex ownership.	TAT ≤ 5 WD
4	■ TAT ≤ 5 WD Main · Wait	review	Tracking ID. Longer TAT than individuals (2 WD).	Entity TAT A 5 working days.	approve → Entity account gaps → More UBO info sanctions → BO sanctions reject
5	■ Entity account Main · Success	ACTIVE entity	Business CIF + account.	UBOs stored.	End of this branch

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
6	More UBO info Branch · Action	info required	Checklist of missing ownership evidence.	Additional information.	Screen entity + BOs
7	BO sanctions reject Branch · Fail / stop	REJECTED	Written reason.	Fail closed.	End of this branch
