Family A — Core wallet

UJ-E01	Verisys wallet 50k	Ayesha — first EMI wallet
UJ-E02	NADRA BV upgrade 400k	Ayesha — needs higher load
UJ-E03	Enhanced wallet 1M	Sana — SoF + PSP&OD product

Family B — Identity exceptions

UJ-E04	One credit then unverified close + STR	Policy-enabled pre-verify credit
UJ-E05	Duplicate CNIC — one wallet	Yasmin — already has this EMI wallet
UJ-E06	OTP / 2FA fail	Ayesha — mistypes OTP
UJ-E07	BV fail → stay 50k / video KYC	Bilal — unclear fingerprints
UJ-E08	NADRA timeout / outage	Any — vendor down

Family C — AML and tracking

UJ-E09	Tracking ID + TAT 2 WD	Any in review
UJ-E10	Sanctions / fraud true match	System decline — written reason
UJ-E11	PEP / high-risk EDD + video	Sana — high CRP or PEP

Family D — Lifecycle

UJ-E12	Agent cash-in / cash-out	Ayesha at an agent
UJ-E13	Minor basic linked wallet	Guardian + minor
UJ-E14	Minor freelancer enhanced	Guardian + freelancer minor
UJ-E15	Inward remittance exclusion	Ayesha — home remittance
UJ-E16	Salary credit exclusion	Ayesha — employer IBFT
UJ-E17	Merchant / entity wallet	Phase 2 — business
UJ-E18	Decline mandatory consents	Ayesha — refuses NADRA processing
UJ-E19	Abandon and resume ≤ 30 days	Ayesha — exits at live photo
UJ-E20	Periodic / event KYC refresh	Ayesha — due by risk interval

Verisys wallet 50k

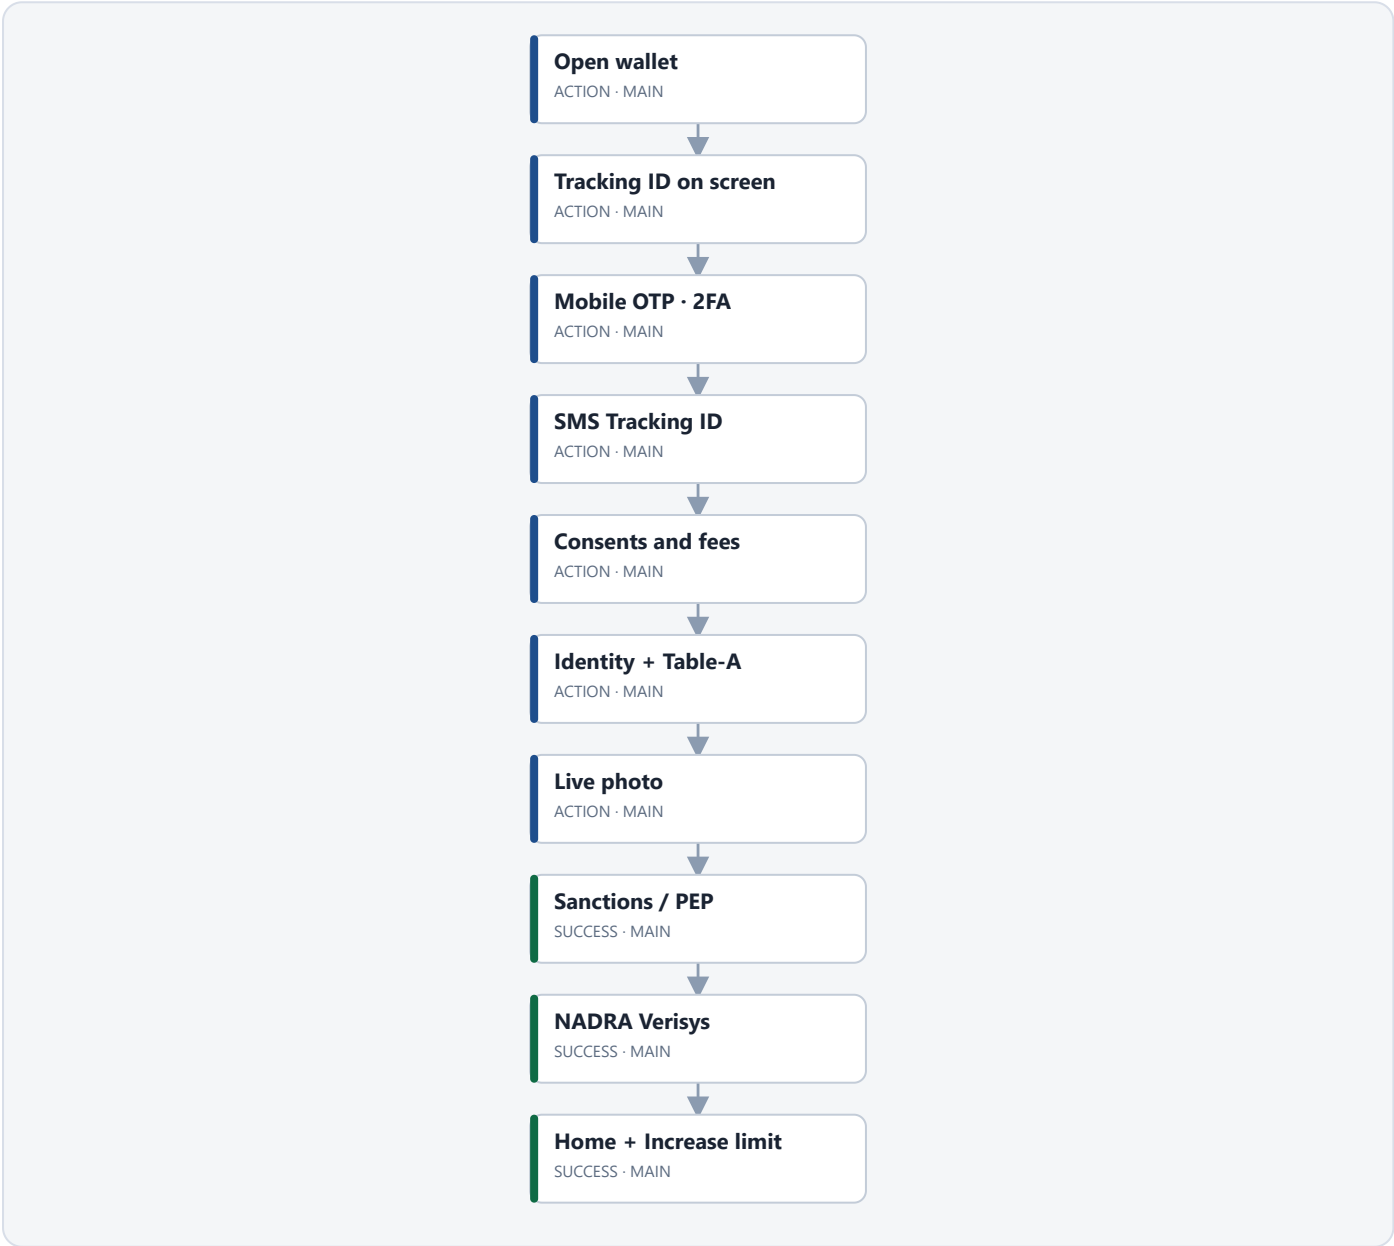

Ayesha — first EMI wallet · A EMI \$12 / \$14.II · A live photo / TAT

Digital wallet opens on NADRA Verisys plus screening. Monthly load is PKR 50,000. This is e-money, not a bank deposit.

TRIGGER Taps Open wallet. Eligible digital ID. Verisys and TFS clear.	SUCCESS WALLET_ACTIVE · VERISYS. Load 50k/month. Cash-out 10k/day.	ALTERNATE Duplicate CNIC, OTP fail, sanctions, NADRA outage (UJ-E05–E11).
---	--	---

Workflow

Steps

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
1	■ Open wallet Main · Action	INITIATED	Opens app or web and taps Open wallet.	Creates application. Channel, device hash, IP, geo if permitted. Not a bank CIF.	Tracking ID on screen
2	■ Tracking ID on screen Main · Action	INITIATED	Sees Tracking ID. Can copy it. No SMS yet.	Issues Tracking ID in-app only. No destination until OTP.	Mobile OTP · 2FA
3	■ Mobile OTP · 2FA Main · Action	CONTACT_VERIFIED	Enters PTA-registered mobile and OTP.	2FA required (EMI \$12). Does not skip state on wrong OTP.	SMS Tracking ID
4	■ SMS Tracking ID Main · Action	CONTACT_VERIFIED	Receives SMS: wallet application started + Tracking ID.	First out-of-band notify only after OTP success.	Consents and fees
5	■ Consents and fees Main · Action	CONSENT_CAPTURED	Accepts T&Cs, privacy, NADRA/BV, fee schedule. Marketing off by default.	Versioned consents. Blocks continue until mandatory accepted.	Identity + Table-A
6	■ Identity + Table-A Main · Action	IDENTITY_CAPTURED	CNIC/NICOP/POC/POR/ARC. Two extra non-CNIC fields. Live CNIC image.	EMI \$12 minimum + Consolidated Table-A. CNIC uniqueness check.	Live photo
7	■ Live photo Main · Action	LIVE_PHOTO_CAPTURED	Centers face. Captures live photo. Good light, no mask.	Encrypted upload. Face match vs ID. Liveness is not NADRA BV.	Sanctions / PEP
8	■ Sanctions / PEP Main · Success	SCREENING_IN_PROGRESS → clear	Sees Under review. Does not see list names.	UNSC + ATA + PEP + watchlist before payment-service use. Fail closed if provider down.	NADRA Verisys
9	■ NADRA Verisys Main · Success	WALLET_ACTIVE · VERISYS	Wallet ready — 50,000 per month.	Activate after \$12 verify + pre-screen. limit_tier=VERISYS.	Home + Increase limit
10	■ Home + Increase limit Main · Success	WALLET_ACTIVE	Balance, pay, IBFT in. Banner to complete biometric for 400k.	Ledger enforces 50k load and 10k/day cash-out. Trust posting at par when funded.	End of this branch

NADRA BV upgrade 400k

Ayesha — needs higher load · A EMI \$14 · channel D

Biometric verification raises commercial monthly load to PKR 400,000 (pilot: 200,000). Selfie is not BV.

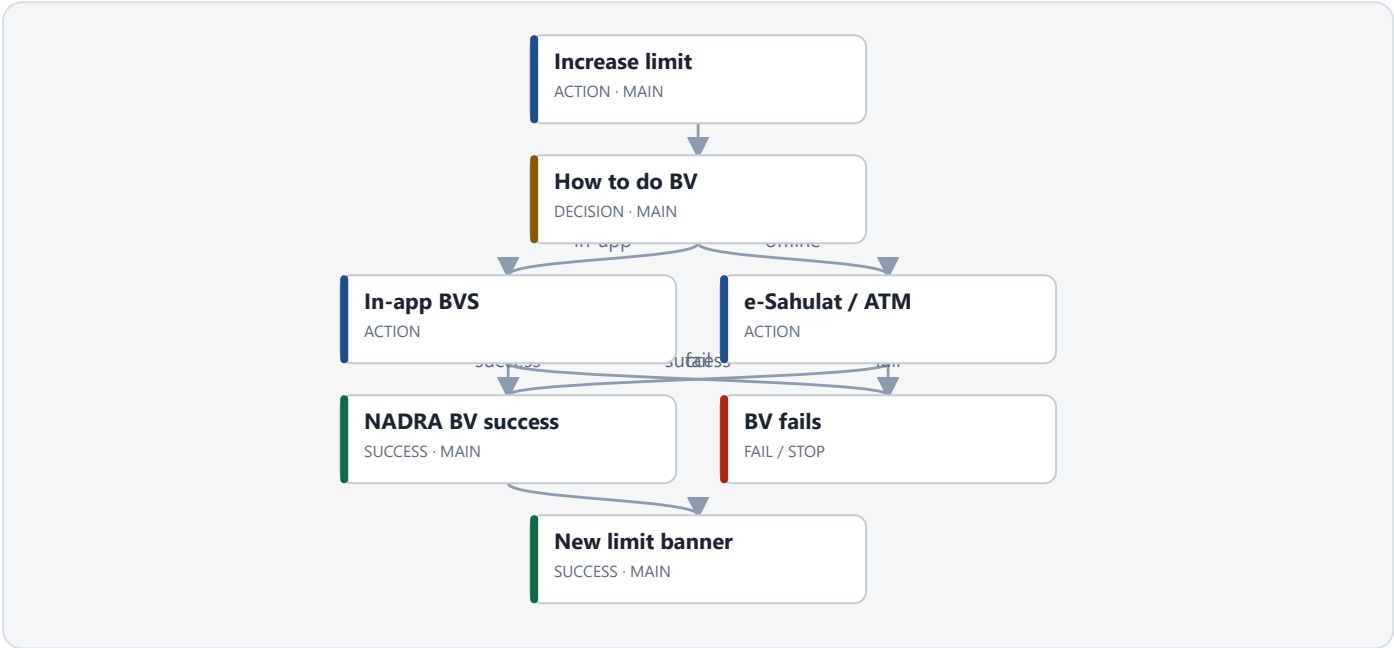

TRIGGER
Taps Increase limit on a VERISYS wallet.

SUCCESS
limit_tier=BV. Banner shows new monthly load. Cash-out from CRP.

ALTERNATE
BV fail → UJ-E07. NADRA down → UJ-E08.

Related [UJ-E01](#) · [UJ-E03](#) · [UJ-E07](#)

Workflow

Steps

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
1	Increase limit Main · Action	WALLET_ACTIVE · VERISYS	Taps Increase my limit. Told SBP 50k vs 400k.	Starts BV session. Reads licence_phase.	How to do BV
2	How to do BV Main · Decision	IDENTITY_VERIFICATION_IN_PROGRESS	In-app fingerprint/face, NADRA e-Sahulat, or partner ATM.	Same application. Authenticated BV channel.	in-app → In-app BVS offline → e- Sahulat / ATM
3	NADRA BV success Main · Success	WALLET_ACTIVE · BV	Limit increased.	400k commercial or 200k pilot. Cash-out from CRP.	New limit banner
4	New limit banner Main · Success	WALLET_ACTIVE · BV	Sees 400,000 per month (or 200k if pilot).	Ledger policy switch. Alerts continue.	End of this branch

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
5	■ In-app BVS Branch · Action	IN_PROGRESS	Scans fingerprint/face in Pakistan.	NADRA BV adapter. No raw template store.	success → NADRA BV success fail → BV fails
6	■ e-Sahulat / ATM Branch · Action	IN_PROGRESS	Completes BV at NADRA agent or partner ATM (no card if offered).	Receipt/ATM adapter. Confirm BV not CNIC-only Verisys.	success → NADRA BV success fail → BV fails
7	■ BV fails Branch · Fail / stop	VERISYS	Retry, e-Sahulat, or video KYC. Wallet stays 50k.	Do not fake BV. Stay VERISYS.	End of this branch

Enhanced wallet 1M

Sana — SoF + PSP&OD product · A EMI \$14.1M not outsourced

After commercial licence, PSP&OD may allow up to PKR 1,000,000 if SoF, CNIC-SIM pairing, TMS, and CRP are done in-house.

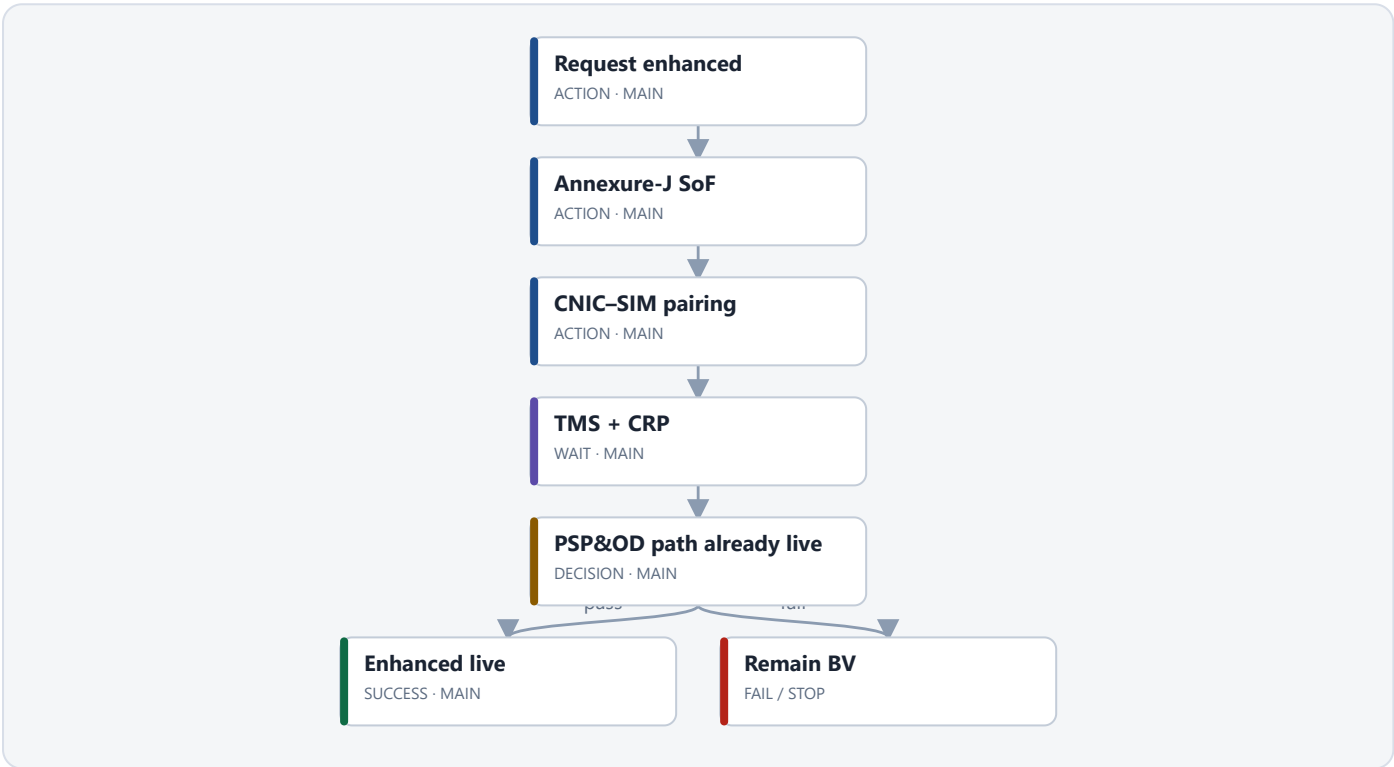

TRIGGER
BV wallet. EMI has enhanced product approval. Customer requests.

SUCCESS
limit_tier=ENHANCED up to 1M.

ALTERNATE
Missing SoF or pairing → remain BV.

Related [UJ-E02](#) · [UJ-E11](#)

Workflow

Steps

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
1	Request enhanced Main · Action	WALLET_ACTIVE · BV	Taps higher limit / enhanced wallet.	Checks commercial licence + PSP&OD flag.	Annexure-J SoF
2	Annexure-J SoF Main · Action	ADDITIONAL_INFORMATION_REQUIRED	Uploads income / source of funds.	Stores artefacts. Verification not outsourced.	CNIC-SIM pairing
3	CNIC-SIM pairing Main · Action	verification	Confirms mobile ownership on this device.	Pairs CNIC to SIM/device of the instrument.	TMS + CRP
4	TMS + CRP Main · Wait	EDD_REQUIRED / review	Waits. Tracking ID visible.	Robust TMS scenarios + detailed risk profile. In-house.	PSP&OD path already live

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
5	 PSP&OD path already live Main · Decision	review	Does not see regulator UI.	Product already approved; this is per-customer control check.	pass → Enhanced live fail → Remain BV
6	 Enhanced live Main · Success	WALLET_ACTIVE · ENHANCED	Sees higher limit banner.	limit_tier=ENHANCED. Ledger cap 1M.	End of this branch
7	 Remain BV Branch · Fail / stop	WALLET_ACTIVE · BV	Told what is still missing.	No silent 1M.	End of this branch

One credit then unverified close + STR

Policy-enabled pre-verify credit · A EMI \$12.IV

EMI may allow one credit before credentials are verified. If verification fails, close the instrument and file STR. Recommended default is off.

TRIGGER

Product flag allows one inbound before NADRA/screen complete.

SUCCESS

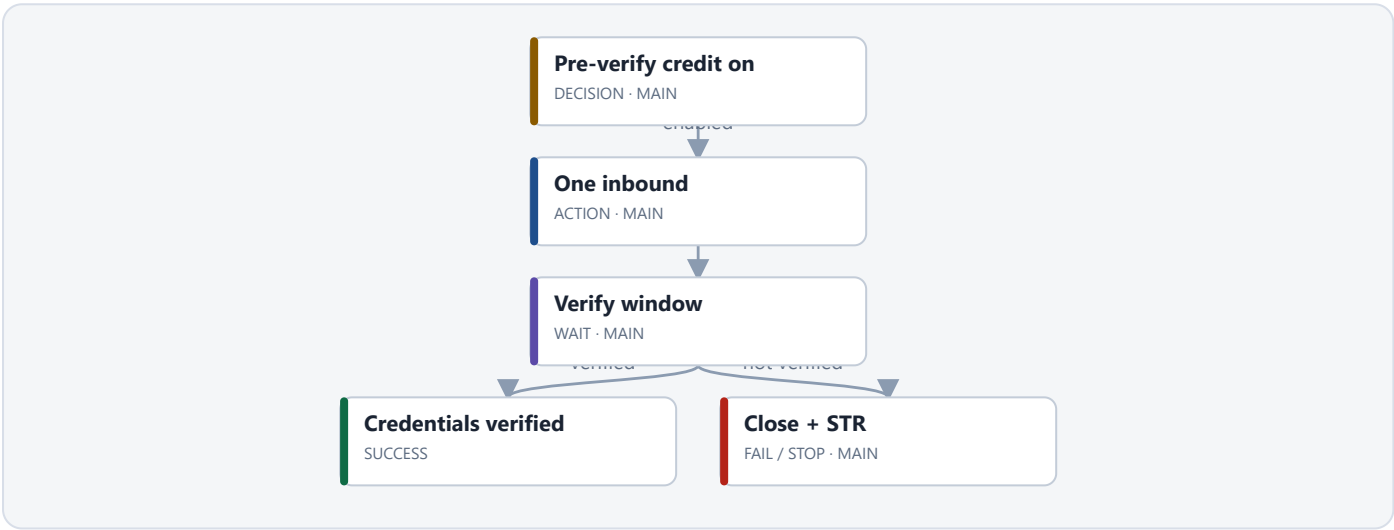

If later verified → continue UJ-E01. If not → closed + STR.

ALTERNATE

Prefer disable this flag and verify first.

Related [UJ-E01](#) · [UJ-E10](#)

Workflow

Steps

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
1	Pre-verify credit on Main · Decision	INITIATED / pending	May see pending wallet.	unverified_one_credit flag. Hard timeout.	enabled → One inbound
2	One inbound Main · Action	pending verify	Receives one credit/IBFT.	Ledger allows exactly one. No spend if policy stricter.	Verify window
3	Verify window Main · Wait	pending verify	Prompted to finish KYC.	NADRA + TFS still required.	verified → Credentials verified not verified → Close + STR
4	Close + STR Main · Fail / stop	CLOSED_UNVERIFIED	Wallet closed. Support copy without extra PII.	CLOSED_UNVERIFIED. File STR with FMU.	End of this branch
5	Credentials verified Branch · Success	WALLET_ACTIVE	Wallet becomes VERISYS/BV per path.	Clear flag. Continue UJ-E01.	End of this branch

Duplicate CNIC — one wallet

Yasmin — already has this EMI wallet · A EMI \$12.VII

A CNIC holder may open only one e-money instrument with this EMI. Copy must say You already have a wallet — not a vague reject.

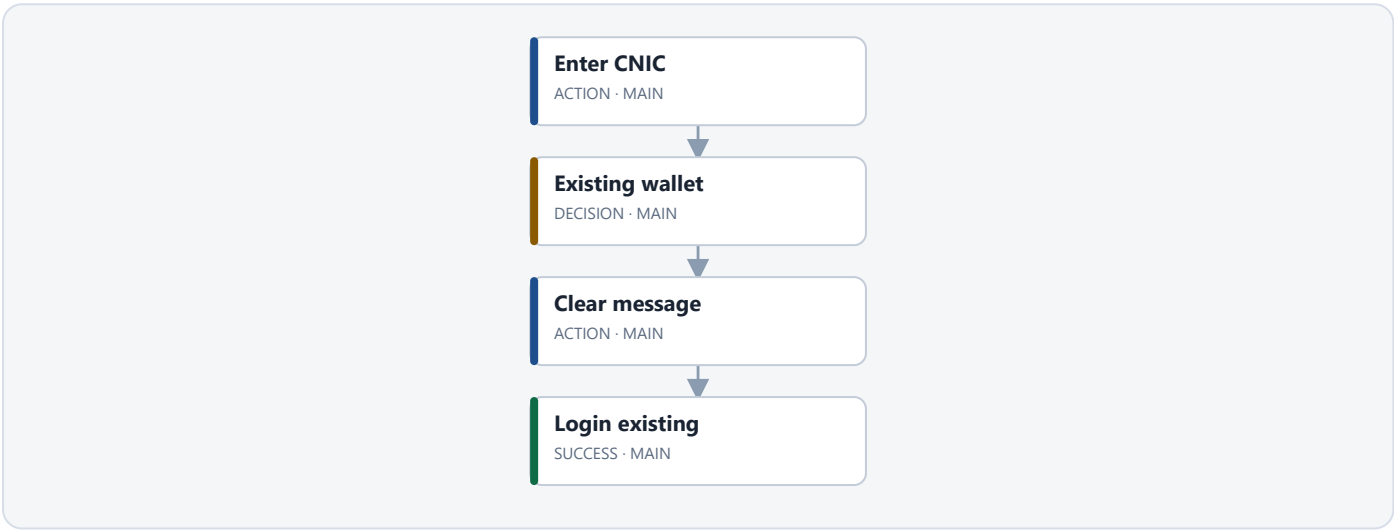

TRIGGER
CNIC hash matches an open wallet at this EMI.

SUCCESS
Login / recovery to existing wallet.

ALTERNATE
Closed wallet reopen policy — Legal.

Related [UJ-E01](#) · [UJ-E09](#)

Workflow

Steps

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
1	Enter CNIC Main · Action	IDENTITY_CAPTURED	Enters identity.	Hash vs uniqueness key.	Existing wallet
2	Existing wallet Main · Decision	blocked	Stopped from a second instrument.	Block issue-wallet.	Clear message
3	Clear message Main · Action	existing	You already have a wallet — log in.	Redirect intent. Not Rejected by policy only.	Login existing
4	Login existing Main · Success	WALLET_ACTIVE existing	Goes to login/recovery.	No second instrument.	End of this branch

OTP / 2FA fail

Ayesha — mistypes OTP · A 2FA · B/C OTP security

Wrong OTP never skips CONTACT_VERIFIED. After N fails, cool-down. Change number is a new attempt.

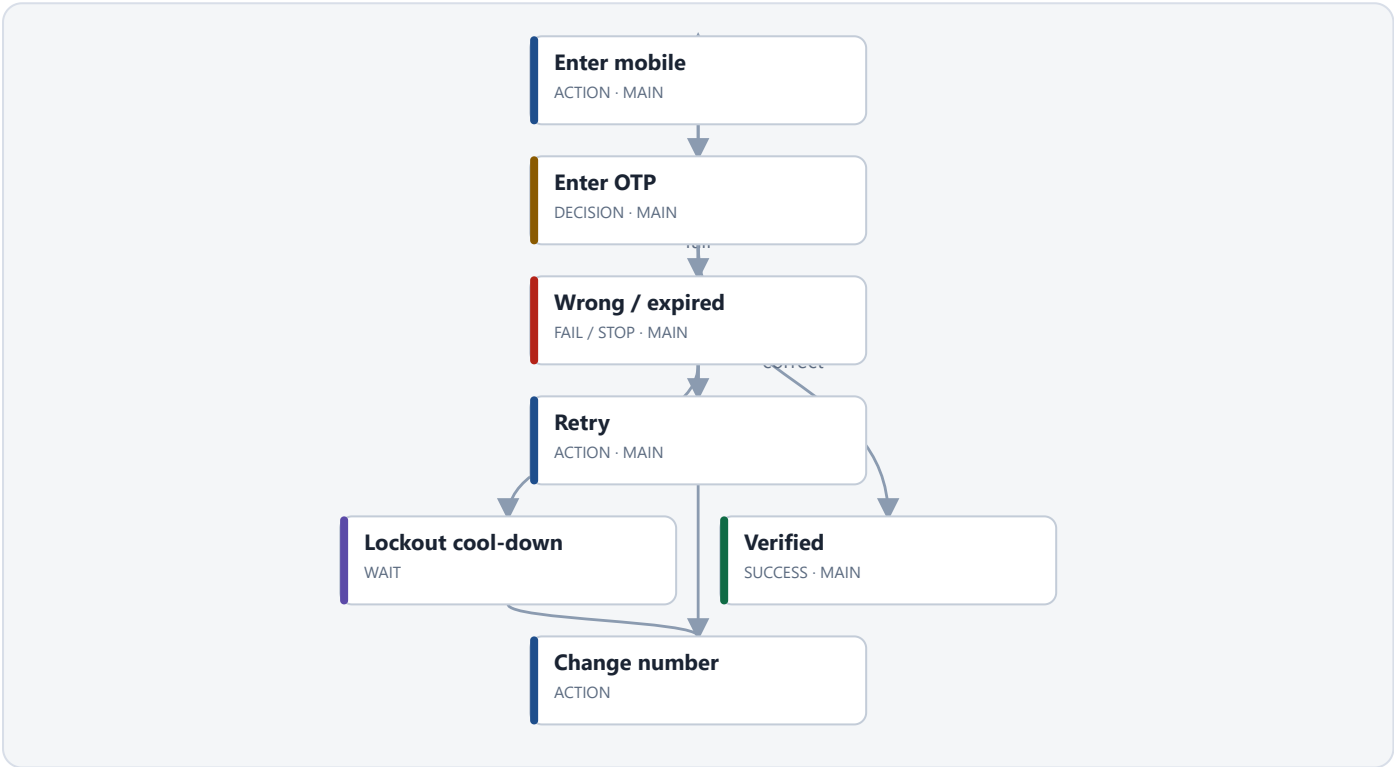

TRIGGER
Wrong OTP, expiry, or different mobile.

SUCCESS
Mobile verified → CONTACT_VERIFIED. Then SMS Tracking ID.

ALTERNATE
Cool-down. Support via in-app Tracking ID.

Related [UJ-E01](#) · [UJ-E09](#)

Workflow

Steps

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
1	Enter mobile Main · Action	INITIATED	Types mobile. Helper: PTA-registered in own name.	Start OTP. Attempt counters.	Enter OTP
2	Enter OTP Main · Decision	INITIATED	Enters code from SMS.	No OTP in logs. 2FA confirm or fail.	correct → Verified fail → Wrong / expired
3	Wrong / expired Main · Fail / stop	INITIATED	Retry. Remaining attempts shown.	Does not advance state.	Retry N fails → Lockout cool-down
4	Retry Main · Action	INITIATED	Requests new OTP.	Resend with limits.	Enter OTP
5	Verified Main · Success	CONTACT_VERIFIED	Mobile verified badge.	Bind MSISDN. SMS Tracking ID.	End of this branch

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
6	Lockout cool-down Branch · Wait	INITIATED	Sees timer.	Cool-down. Still INITIATED.	Change number
7	Change number Branch · Action	INITIATED	Optional new number. New attempt rules.	New OTP cycle. Fraud rules.	Enter mobile

BV fail → stay 50k / video KYC

Bilal — unclear fingerprints · A Consolidated no-branch EMI

Greenfield EMI has no branches. Do not pretend BV succeeded. Keep Verisys 50k or use Verisys+MSISDN or recorded video KYC + Verisys.

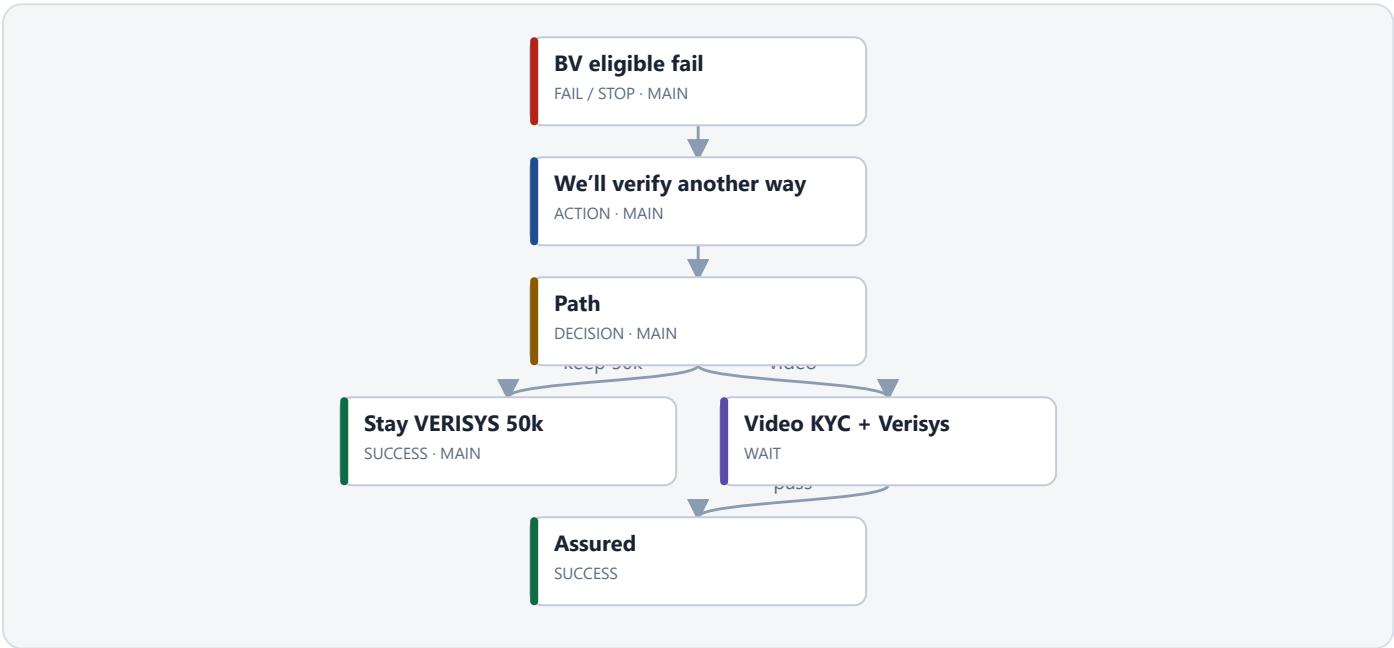

TRIGGER
Live photo OK. BV fails for an eligible reason.

SUCCESS
Stay VERISYS 50k, or video+Verisys then BV upgrade later.

ALTERNATE
No-show → reschedule. No debit-block bank product.

Related [UJ-E02](#) · [UJ-E08](#)

Workflow

Steps

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
1	BV eligible fail Main · Fail / stop	IDENTITY_VERIFICATION_IN_PROGRESS	Fingerprint/face BV does not complete.	Eligible-reason check. Do not mark BV.	We'll verify another way
2	We'll verify another way Main · Action	IN_PROGRESS	Plain EN/UR. Wallet can stay at 50k.	Record why BV not met.	Path
3	Path Main · Decision	IN_PROGRESS	Keep 50k, try e-Sahulat, or book video KYC.	No silent 400k.	keep 50k → Stay VERISYS 50k video → Video KYC + Verisys

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
4	Stay VERISYS 50k Main · Success	WALLET_ACTIVE · VERISYS	Explicit 50k banner. Increase limit still available.	limit_tier=VERISYS. Not a bank debit-block.	End of this branch
5	Video KYC + Verisys Branch · Wait	VIDEO_KYC_PENDING	Books recorded session. Shows ID.	Retain recording. Verisys. EMI without presence path.	pass → Assured
6	Assured Branch · Success	VERISYS or BV	May then retry BV for 400k.	Still not BV unless NADRA BV succeeds.	End of this branch

NADRA timeout / outage

Any — vendor down · A fail-controlled

NADRA 503 never becomes silent 400k or silent activate. Hold IN_PROGRESS. Resume ≤ 30 days.

TRIGGER
NADRA timeout or 503.

SUCCESS
Vendor recovers → UJ-E01 or UJ-E02.

ALTERNATE
Max retries → video/case. Still no silent upgrade.

Related [UJ-E01](#) · [UJ-E02](#) · [UJ-E19](#)

Workflow

Steps

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
1	NADRA call fails Main · Fail / stop	IDENTITY_VERIFICATION_IN_PROGRESS	Verification taking longer + Tracking ID. No fake Wallet ready.	503/timeout. Stay IN_PROGRESS.	Hold — no STP
2	Hold — no STP Main · Wait	IN_PROGRESS	Retry CTA. Can leave and come back.	Backoff. Never activate on outage.	Customer retry
3	Customer retry Main · Action	IN_PROGRESS	Taps retry.	Idempotent restart.	up → Vendor up still down → Max retries
4	Vendor up Main · Success	WALLET_ACTIVE or still in progress	Verisys or BV continues.	Resume UJ-E01 / UJ-E02.	End of this branch
5	Max retries Branch · Fail / stop	alternate or case	Video or wait for case.	Still no silent 400k.	End of this branch

Tracking ID + TAT 2 WD

Any in review · A tracking · A TAT 2 WD

Tracking ID on screen from Step 0. SMS after OTP. Individual decision TAT 2 working days. No silent stall.

TRIGGER
Any in-flight or delayed wallet application.

SUCCESS
Customer knows next action.

ALTERNATE
Unknown ID → generic error. Entity TAT 5 WD is UJ-E17.

Related [UJ-E01](#) · [UJ-E06](#) · [UJ-E11](#)

Workflow

Steps

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
1	■ Where the ID is Main · Action	any	On-screen from Step 0. SMS after OTP. Email if captured.	Never SMS at Step 0.	Enter Tracking ID
2	■ Enter Tracking ID Main · Action	current	App/web status field.	GET tracking. Rate-limited. Minimal fields.	found → Next step shown not found → Unknown ID
3	■ Next step shown Main · Success	current	Progress, limit tier, next action. No extra PII.	Non-sensitive status.	SLA breach → Day 3 no decision
4	■ Day 3 no decision Main · Fail / stop	unchanged	Notified still in review + support.	TAT comms. State unchanged.	End of this branch
5	■ Unknown ID Branch · Fail / stop	n/a	Generic error.	No enumeration.	End of this branch

Sanctions / fraud true match

System decline — written reason · A TFS · A written decline

Confirmed UNSC/ATA hit or fraud lock is fail-closed. No e-money instrument. No STP retry.

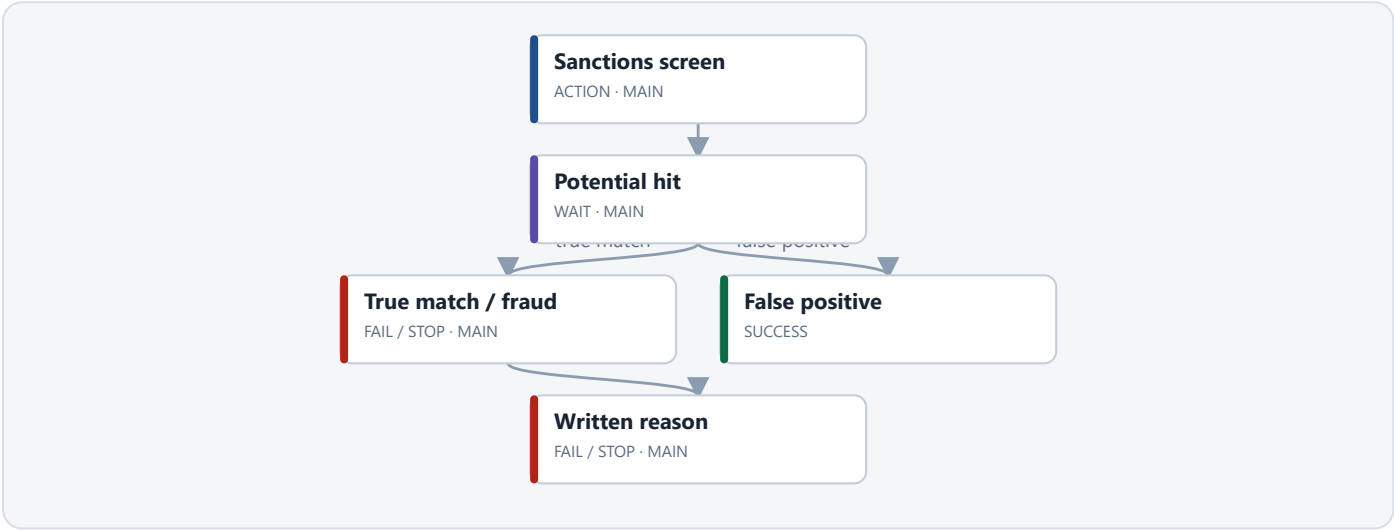

TRIGGER
Confirmed sanctions/proscribed hit after adjudication, or fraud lock.

SUCCESS
Customer understands outcome. Support available.

ALTERNATE
Potential hit first → Under review until adjudication.

Related [UJ-E01](#) · [UJ-E11](#)

Workflow

Steps

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
1	Sanctions screen Main · Action	SCREENING_IN_PROGRESS	Sees Under review. Not lists.	UNSC + ATA + watchlist. Fail closed if provider down.	Potential hit
2	Potential hit Main · Wait	SCREENING_HIT_REVIEW	Status Under review. Tracking ID.	SCREENING_HIT_REVIEW. Ops adjudicates.	true match → True match / fraud false positive → False positive
3	True match / fraud Main · Fail / stop	REJECTED	Application rejected. No wallet.	No instrument. Audit. No STP retry.	Written reason
4	Written reason Main · Fail / stop	REJECTED	Specific legal-approved wording + support.	Decline notice A.	End of this branch

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
5	False positive Branch · Success	IDENTITY_VERIFICATION_IN_PROGRESS	Continues Verisys path.	Adjudicated clear.	End of this branch

PEP / high-risk EDD + video

Sana — high CRP or PEP · A EDD · A recorded video NTF

High CRP or PEP needs extra SoW/SoF and recorded video. Customer waits. Senior approval is ops-side.

TRIGGER
PEP yes / list hit, or CRP HIGH.

SUCCESS
Wallet with enhanced monitoring, or written decline.

ALTERNATE
Missed interview → reschedule. Delay → UJ-E09.

Related [UJ-E03](#) · [UJ-E10](#)

Workflow

Steps

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
1	Extra verification needed Main · Action	EDD_REQUIRED	Told additional verification is required. Not 50k STP if policy EDD.	EDD_REQUIRED.	Upload Sol / SoW
2	Upload Sol / SoW Main · Action	EDD_REQUIRED	Uploads source of income/wealth.	Stores on EDD case.	Book video interview
3	Book video interview Main · Action	VIDEO_KYC_PENDING	Schedules recorded video KYC.	Session + retention.	Recorded interview
4	Recorded interview Main · Action	VIDEO_KYC_PENDING	Joins. Purpose, occupation, funds.	Recording retained. Senior path if PEP.	Decision

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
5	 Decision Main · Decision	WALLET_ACTIVE or REJECTED	Approve with monitoring or written reject.	Maker-checker invisible to customer.	approve → Wallet + monitoring reject → Rejected in writing
6	 Wallet + monitoring Branch · Success	WALLET_ACTIVE	Can use wallet. Limit tier per BV/Verisys.	edd monitoring flag. TMS on.	End of this branch
7	 Rejected in writing Branch · Fail / stop	REJECTED	Specific reason + support.	No instrument.	End of this branch

Agent cash-in / cash-out

Ayesha at an agent · A EMI \$15 / \$17 no issuance

Agents cash-in/out and redeem. They must not open wallets. Cash-in and cash redemption need BV. ATM cash-out needs 2FA.

TRIGGER

Existing wallet holder visits SBP-approved agent or ATM.

SUCCESS

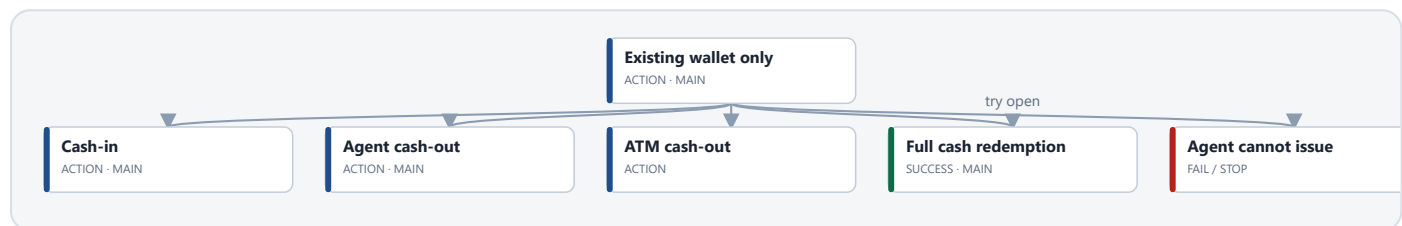

Cash moved at par. Alerts fire.

ALTERNATE

Agent tries to issue → blocked.

Related [UJ-E01](#) · [UJ-E02](#)

Workflow

Steps

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
1	Existing wallet only Main · Action	WALLET_ACTIVE	Already has this EMI wallet.	Agent channel cannot POST issue-wallet.	Cash-in Agent cash-out ATM cash-out Full cash redemption try open → Agent cannot issue
2	Cash-in Main · Action	WALLET_ACTIVE	Hands cash. Completes BV.	BV required. Credit e-money at par. Trust posting.	End of this branch
3	Agent cash-out Main · Action	WALLET_ACTIVE	Withdraws cash.	BV or 2FA if BVS is a major challenge. Limit engine.	End of this branch
4	Full cash redemption Main · Success	WALLET_ACTIVE or closed after full redeem	Redeems at par, no charges.	BV required for cash redemption (\$15).	End of this branch
5	ATM cash-out Branch · Action	WALLET_ACTIVE	ATM withdrawal.	2FA mandatory.	End of this branch
6	Agent cannot issue Branch · Fail / stop	n/a	Told to open in the app.	AGENT_CANNOT_ISSUE.	End of this branch

Minor basic linked wallet

Guardian + minor · A EMI \$14.IV

Minor wallet opens only from the parent/guardian app, linked, funded only from parent wallet. 50k Verisys. Guardian undertaking. TMS.

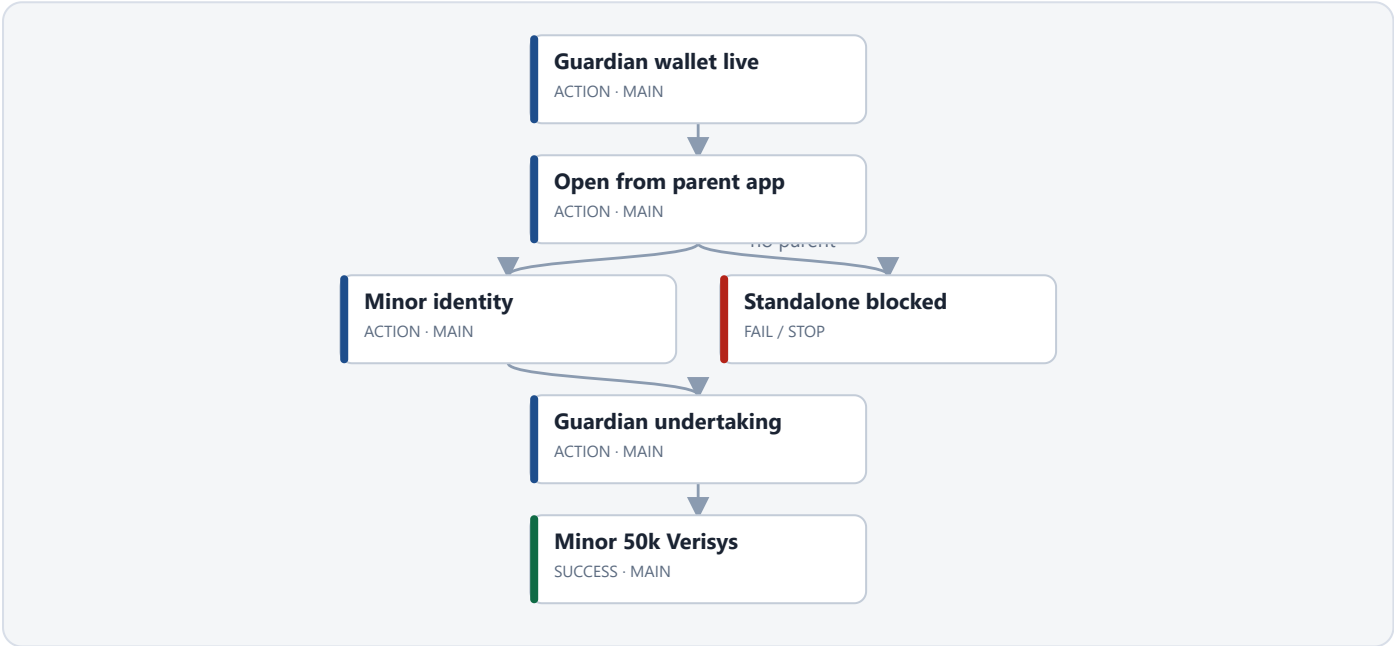

TRIGGER
Guardian with active wallet starts Add child wallet.

SUCCESS
MINOR_BASIC. 50k load. 10k/day cash-out.

ALTERNATE
Digital Form-B may be out of allow-list — confirm Legal.

Related [UJ-E01](#) · [UJ-E14](#)

Workflow

Steps

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
1	Guardian wallet live Main · Action	parent ACTIVE	Adult already KYC'd.	Must be WALLET_ACTIVE parent.	Open from parent app
2	Open from parent app Main · Action	minor application	Cannot start minor signup standalone.	Linked instrument. Same app only.	Minor identity no parent → Standalone blocked
3	Minor identity Main · Action	IDENTITY_CAPTURED	Minor details. Confirm Legal on Form-B vs CNIC family.	AML CDD. Screen minor + guardian.	Guardian undertaking
4	Guardian undertaking Main · Action	CONSENT	Accepts liability for minor actions (written/digital).	Stores undertaking.	Minor 50k Verisys
5	Minor 50k Verisys Main · Success	WALLET_ACTIVE · MINOR_BASIC	Child wallet visible in parent app.	limit_tier=MINOR_BASIC. Fund only from parent. TMS on.	End of this branch

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
6	Standalone blocked Branch · Fail / stop	blocked	Told to use parent app.	No orphan minor wallet.	End of this branch

Minor freelancer enhanced

Guardian + freelancer minor · A EMI §14.V

Freelancer minor may get 400k BV, still linked to parent app. Funding parent or verified income. Not adult 1M enhanced.

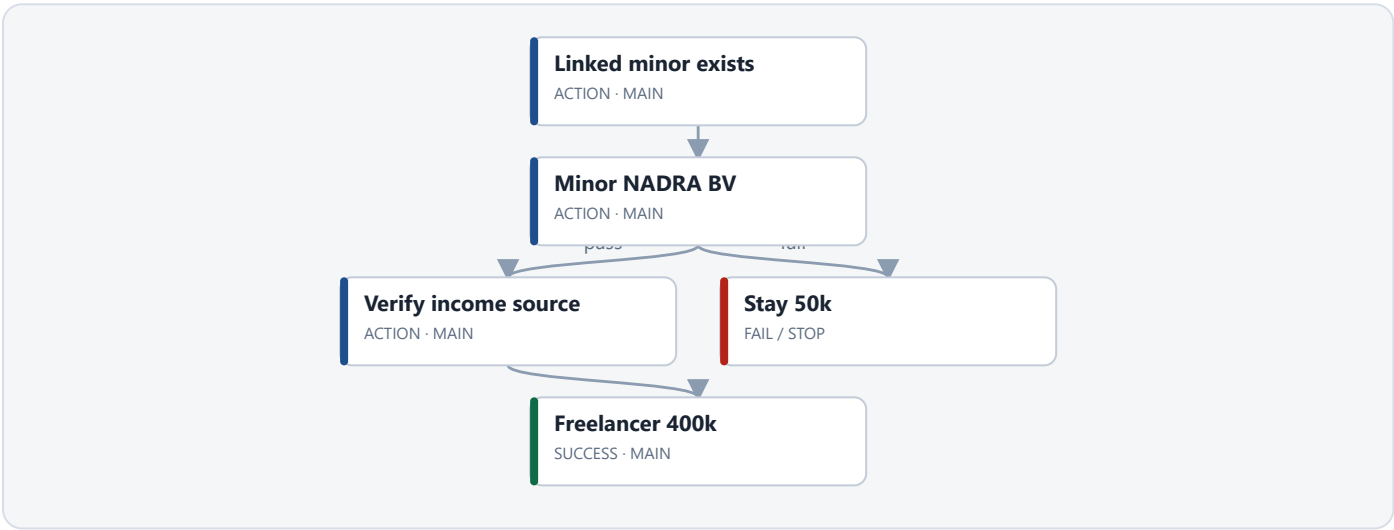

TRIGGER
Guardian requests freelancer limits.
Minor NADRA BV.

SUCCESS
MINOR_FREELANCER. 400k. 10k/day cash-out.

ALTERNATE
No BV → stay basic 50k.

Related [UJ-E13](#) · [UJ-E03](#)

Workflow

Steps

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
1	Linked minor exists Main · Action	MINOR_BASIC	Still only via parent app.	Same linkage rules.	Minor NADRA BV
2	Minor NADRA BV Main · Action	verification	Completes BV.	400k only on BV success.	pass → Verify income source fail → Stay 50k
3	Verify income source Main · Action	profile	Parent wallet and/or EMI-accepted freelance income evidence.	Source of income verified. TMS.	Freelancer 400k
4	Freelancer 400k Main · Success	WALLET_ACTIVE · MINOR_FREELANCER	Higher minor load. Still not 1M adult enhanced.	limit_tier=MINOR_FREELANCER. §14.I–III adult enhanced N/A.	End of this branch
5	Stay 50k Branch · Fail / stop	MINOR_BASIC	Told BV/income still required.	No silent 400k.	End of this branch

Inward remittance exclusion

Ayesha — home remittance · A EMI \$13 / \$14.VI

After EPD approval via an Authorized Dealer, inward remittance up to PKR 1.5m may be excluded from load caps for BV holders if SBP granted the exclusion. Still CDD/TMS.

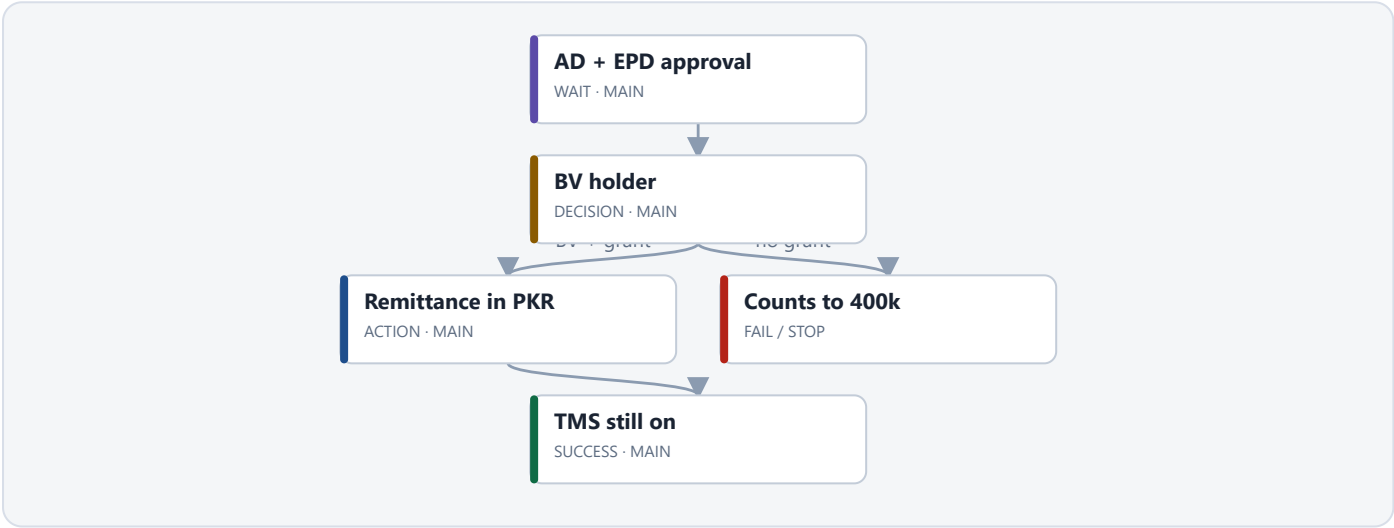

TRIGGER
BV wallet. EMI has AD arrangement.
Inward PRI/home remittance.

SUCCESS
Credit posts; may not consume 400k load if exclusion granted.

ALTERNATE
No SBP exclusion → counts toward monthly load.

Related [UJ-E02](#) · [UJ-E16](#)

Workflow

Steps

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
1	AD + EPD approval Main · Wait	product live	Does not see FX paperwork.	EMI licensed path via Authorized Dealer.	BV holder
2	BV holder Main · Decision	WALLET_ACTIVE · BV	Must already be biometrically verified for exclusion.	Exclusion is for BV wallets except minors.	BV + grant → Remittance in PKR no grant → Counts to 400k
3	Remittance in PKR Main · Action	WALLET_ACTIVE	Sees credit + alert.	IBFT/Raast via trust/settlement bank. Cap 1.5m if exclusion.	TMS still on
4	TMS still on Main · Success	WALLET_ACTIVE	Normal use.	Exclusion is from load math, not from AML.	End of this branch
5	Counts to 400k Branch · Fail / stop	VERISYS or BV without exclusion	May hit monthly load.	No exclusion grant.	End of this branch

Salary credit exclusion

Ayesha — employer IBFT · A EMI §14.VI.i

Salary from employer’s nominated bank may be excluded from load limits for BV holders if SBP granted exclusion. EMI must verify the employer.

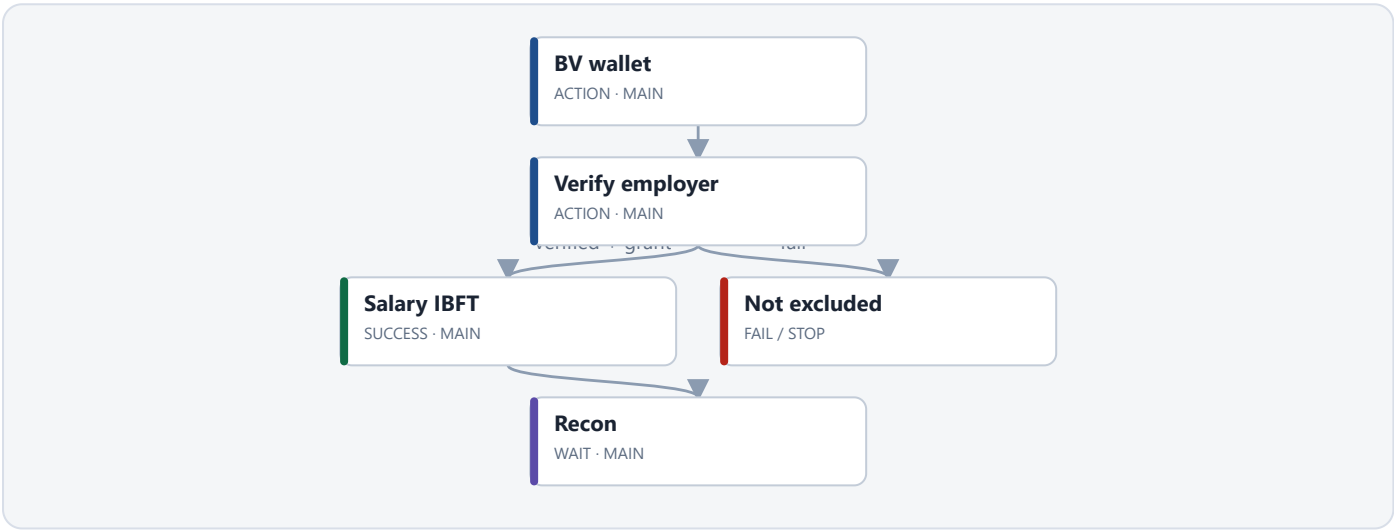

TRIGGER
Employer pays to EMI wallet via authorised FI.

SUCCESS
Salary posts; may sit outside monthly load.

ALTERNATE
Unverified employer → counts as normal credit.

Related [UJ-E15](#) · [UJ-E02](#)

Workflow

Steps

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
1	BV wallet Main · Action	WALLET_ACTIVE · BV	Already upgraded.	Exclusion not for Verisys-only or minors.	Verify employer
2	Verify employer Main · Action	profile	May confirm employer name.	EMI verifies employer via nominated bank path.	verified + grant → Salary IBFT fail → Not excluded
3	Salary IBFT Main · Success	WALLET_ACTIVE	Credit + real-time alert.	If exclusion granted, omit from load cap.	Recon
4	Recon Main · Wait	WALLET_ACTIVE	Pays bills as usual.	TMS + trust recon.	End of this branch
5	Not excluded Branch · Fail / stop	BV	May hit 400k load.	Employer not verified or no SBP grant.	End of this branch

Merchant / entity wallet

Phase 2 — business · A TAT 5 WD · A one wallet per entity

Entity wallets are Phase 2. Table-B / UBO. TAT 5 working days. One wallet per entity with this EMI. Not the individual state machine.

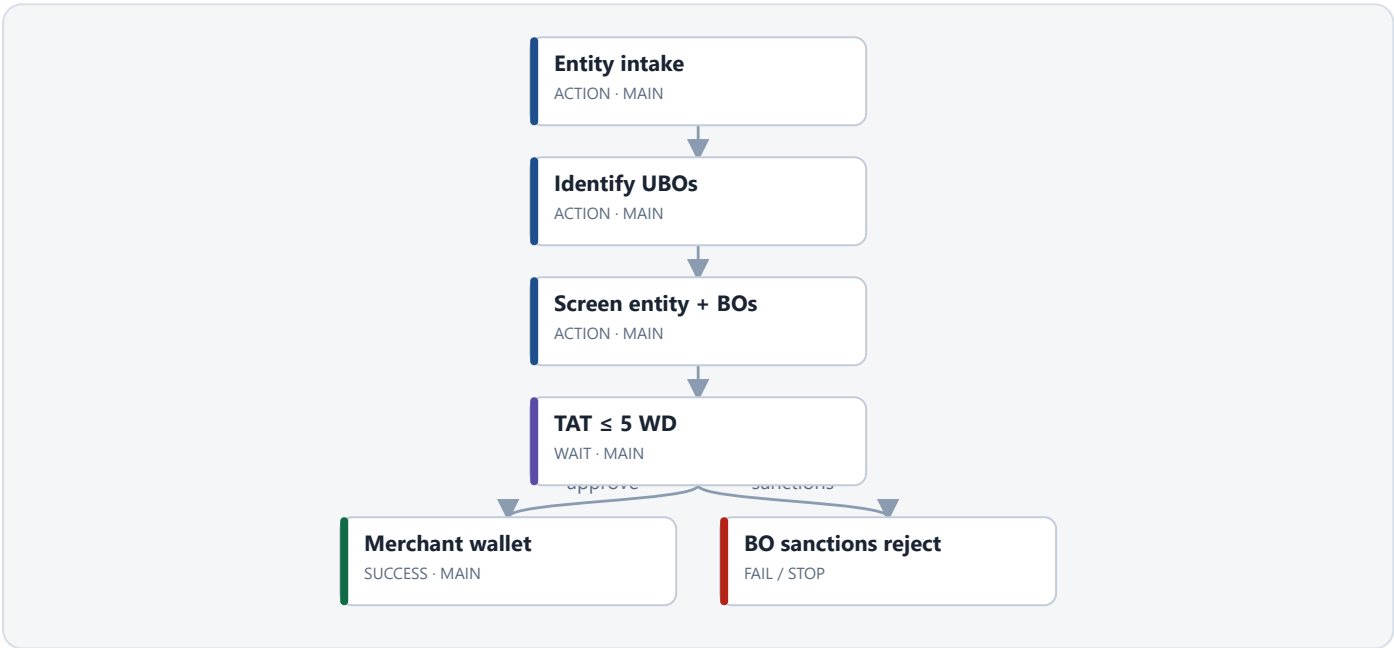

TRIGGER
Business / merchant onboarding.

SUCCESS
Merchant wallet. UBOs stored if legal person.

ALTERNATE
Sanctions on BO → reject. Gaps → more info.

Related [UJ-E01](#) · [UJ-E09](#)

Workflow

Steps

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
1	■ Entity intake Main · Action	entity application	Incorporation docs, addresses, consents.	entities table. Not v1 individual SM.	Identify UBOs
2	■ Identify UBOs Main · Action	UBO capture	Each UBO/controller identified.	20% / 10% EDD — confirm Legal.	Screen entity + BOs
3	■ Screen entity + BOs Main · Action	screening	Waits.	TFS each associated person.	TAT ≤ 5 WD
4	■ TAT ≤ 5 WD Main · Wait	review	Tracking ID. Longer than individual 2 WD.	Entity TAT A.	approve → Merchant wallet sanctions → BO sanctions reject
5	■ Merchant wallet Main · Success	WALLET_ACTIVE entity	Business instrument live.	One wallet per entity. UBOs stored.	End of this branch

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
6	BO sanctions reject Branch · Fail / stop	REJECTED	Written reason.	Fail closed.	End of this branch

Decline mandatory consents

Ayesha — refuses NADRA processing · A consents

T&Cs, privacy, NADRA/BV, and fees gate issuance. Marketing is optional and off by default.

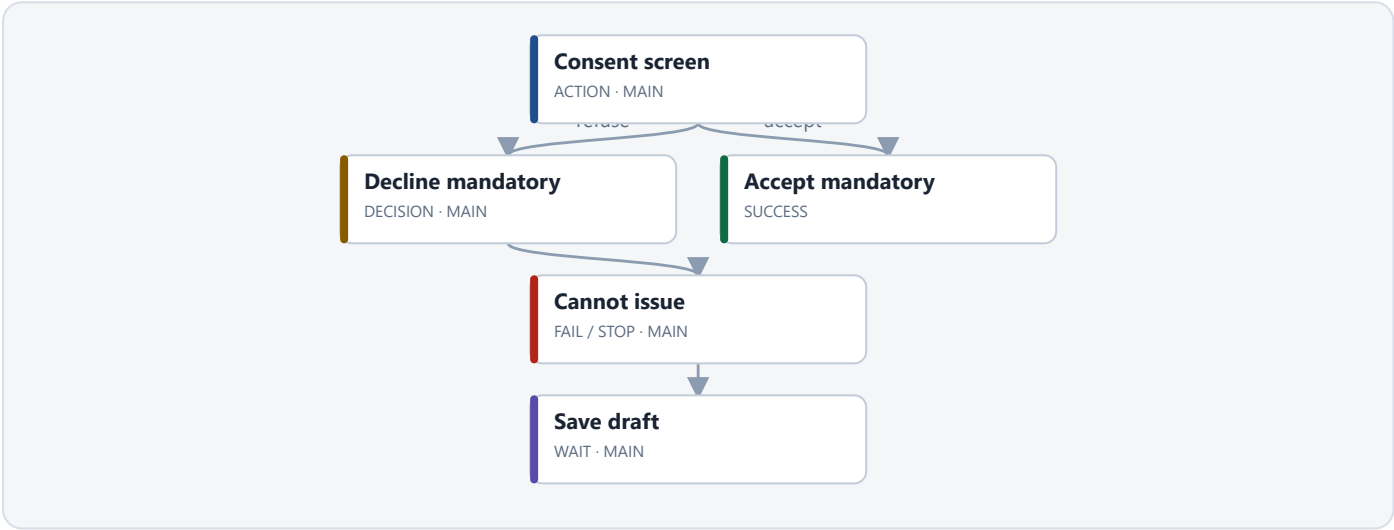

TRIGGER
Leaves a mandatory box unchecked.

SUCCESS
If later accepted →
CONSENT_CAPTURED.

ALTERNATE
Save draft (UJ-E19).

Related [UJ-E01](#) · [UJ-E19](#)

Workflow

Steps

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
1	Consent screen Main · Action	CONTACT_VERIFIED	Reads T&Cs, privacy, NADRA/BV, charges (EN/UR).	Mandatory vs optional visually.	refuse → Decline mandatory accept → Accept mandatory
2	Decline mandatory Main · Decision	CONTACT_VERIFIED	Required box unchecked.	Continue disabled.	Cannot issue
3	Cannot issue Main · Fail / stop	CONTACT_VERIFIED	Explains which consent is required.	No CONSENT_CAPTURED. No wallet.	Save draft
4	Save draft Main · Wait	CONTACT_VERIFIED	Optional Save draft and exit.	30-day resume.	End of this branch
5	Accept mandatory Branch · Success	CONSENT_CAPTURED	Accepts required. Marketing still optional.	Timestamped consents.	End of this branch

Abandon and resume ≤ 30 days

Ayesha — exits at live photo · A 30-day resume

Draft saved up to 30 days. Return to last incomplete step. Day 31+ expired; new application.

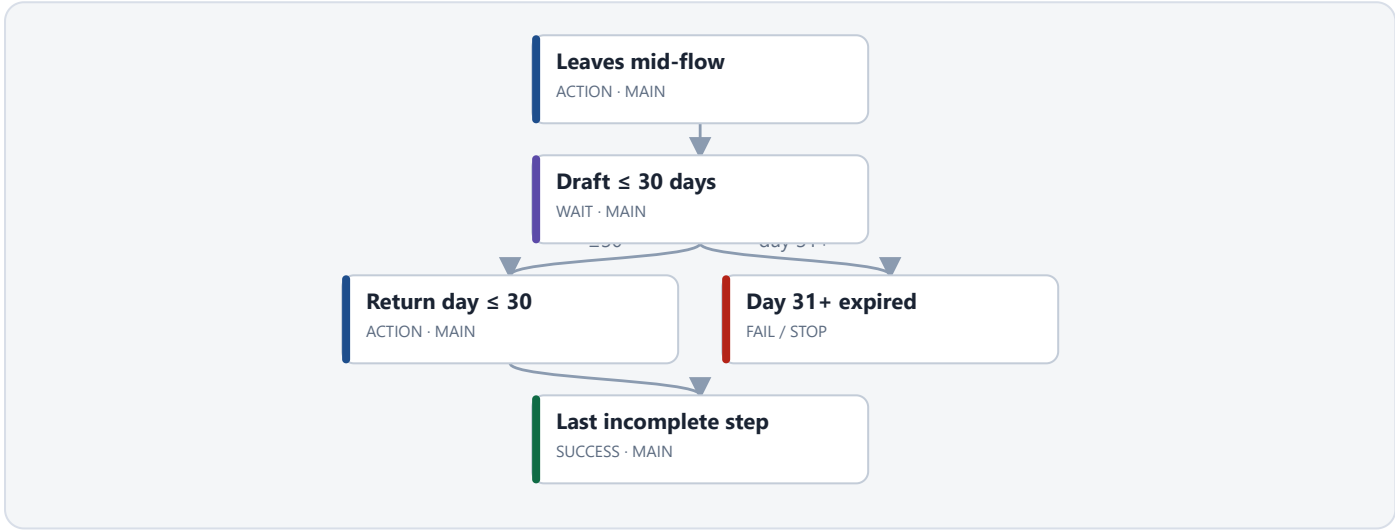

TRIGGER
Exits mid-flow.

SUCCESS
Resumes without re-collecting completed steps.

ALTERNATE
Day 31 → EXPIRED. New Tracking ID.

Workflow

Steps

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
1	Leaves mid-flow Main · Action	last successful state	Closes app at live photo (example).	Persists last successful state.	Draft ≤ 30 days
2	Draft ≤ 30 days Main · Wait	unchanged	Tracking ID already on screen from Step 0.	Resume window A.	≤30 → Return day ≤ 30 day 31+ → Day 31+ expired
3	Return day ≤ 30 Main · Action	unchanged	Deep link or Tracking ID.	Load application. Optional step-up OTP.	Last incomplete step
4	Last incomplete step Main · Success	continues spine	Lands on live photo, not the start.	No skip forward.	End of this branch
5	Day 31+ expired Branch · Fail / stop	EXPIRED	Application expired — start a new one.	EXPIRED. New POST application.	End of this branch

Periodic / event KYC refresh

Ayesha — due by risk interval · A ongoing CDD

Scheduler marks REFRESH_DUE. Overdue restriction is explicit. Re-screen. BV may be re-required for high assurance.

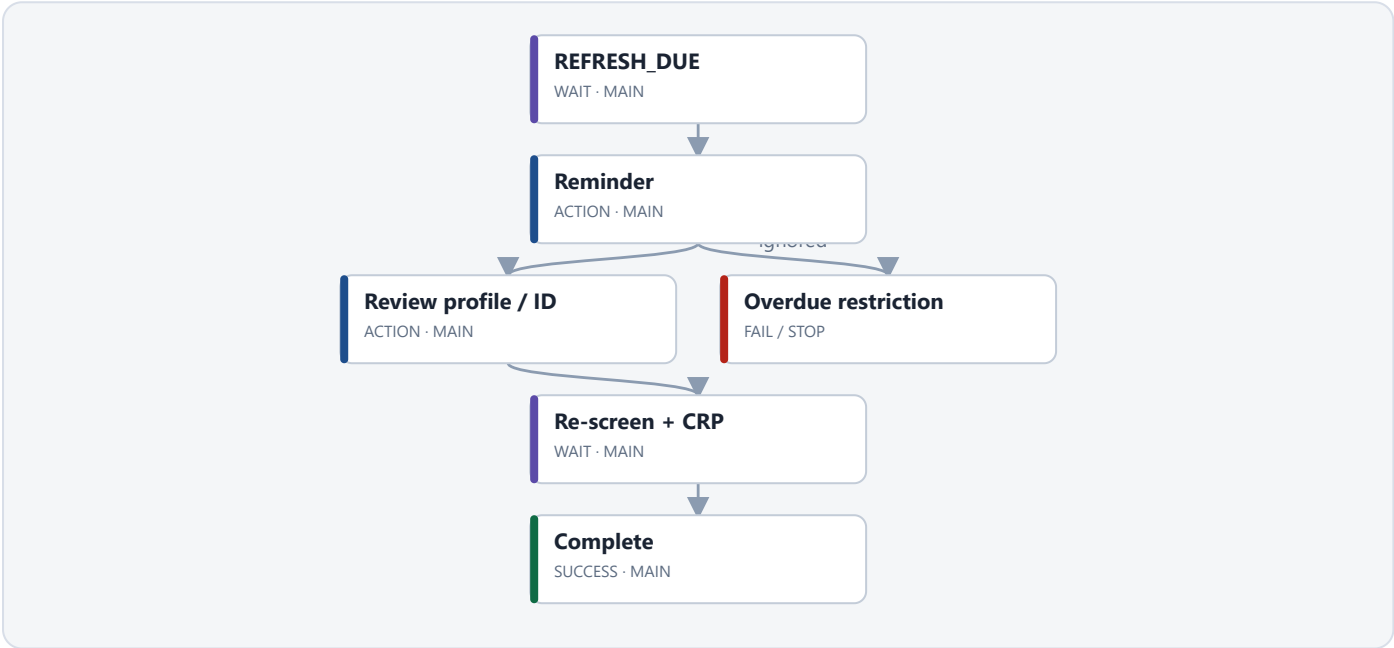

TRIGGER
Calendar interval or ID expiry / adverse event.

SUCCESS
Next due set. Wallet operable.

ALTERNATE
Ignore → explicit restrict. CTA back to refresh.

Workflow

Steps

#	STEP	STATE	CUSTOMER SEES / DOES	SYSTEM DOES	NEXT
1	REFRESH_DUE Main · Wait	WALLET_ACTIVE → REFRESH_DUE	Not yet restricted if inside grace.	Scheduler by CRP.	Reminder
2	Reminder Main · Action	REFRESH_DUE	Update your KYC. Deep link.	Notification. Reason code if event-driven.	Review profile / ID ignored → Overdue restriction
3	Review profile / ID Main · Action	REFRESH_DUE	Confirms fields. Uploads if asked. May re-BV.	Refresh application.	Re-screen + CRP
4	Re-screen + CRP Main · Wait	screening	Under review.	Fresh TFS/PEP + risk. Material change → EDD.	Complete
5	Complete Main · Success	WALLET_ACTIVE	Limits unchanged unless upgrade path.	Schedule updated.	End of this branch
6	Overdue restriction Branch · Fail / stop	REFRESH_DUE / restricted	Explicit restrict copy — not a silent clamp.	Flags. CTA to complete refresh.	End of this branch
